PROFILE

I enjoy designing and building vibrant platforms for our modern age. In the space of software design and development, I have with 4+ years crafting beautiful and simple, user-centric experiences across web, app, and soon, AR.

Also, I have good experience in marketing and sales, and I am seeking to join a team that pushes boundaries and shapes the future, pixel by pixel, user by user while enjoying every bit of it.

SKILL

Design & Media: Graphic, UI/UX, Video Editing

Productivity: MS Suite, DevOps, GitHub, Vercel, AI Tools

Commitment: Leadership, People Relations, Proactive-problem Solving, Negotiation, Communications

Development: Mobile/Web App Front-end Development, WordPress

EXPERIENCE

Creatives and Mobile Applications Developer

Axxend Corporation, Accra, Ghana

09/2023 – 01/2024

Microsoft Gold Partner company specialized in licensing and custom business solutions.

- Created wireframes, prototypes, and high-fidelity mockups using design tools, Figma and Adobe XD, adhering to design principles and brand guidelines.
- Integrated back-end APIs and services to build dynamic display and interactive user interfaces.
- Developed reusable UI components to improve development efficiency and code maintainability.
- Translated designs into clean, efficient, and maintainable code using HTML, CSS, and JavaScript frameworks like React or Next.js.
- Optimized performance by code refactoring, caching strategies, and image optimization techniques.
