

Hello, my name is Deev Eli.

Product Designer & Developer

My interest in design and development started with a personal project. Through this experience, I realized the importance of a good UI design and have since honed my skills in this area.

Have fun watching this portfolio.

Bree - Universities Application Portal

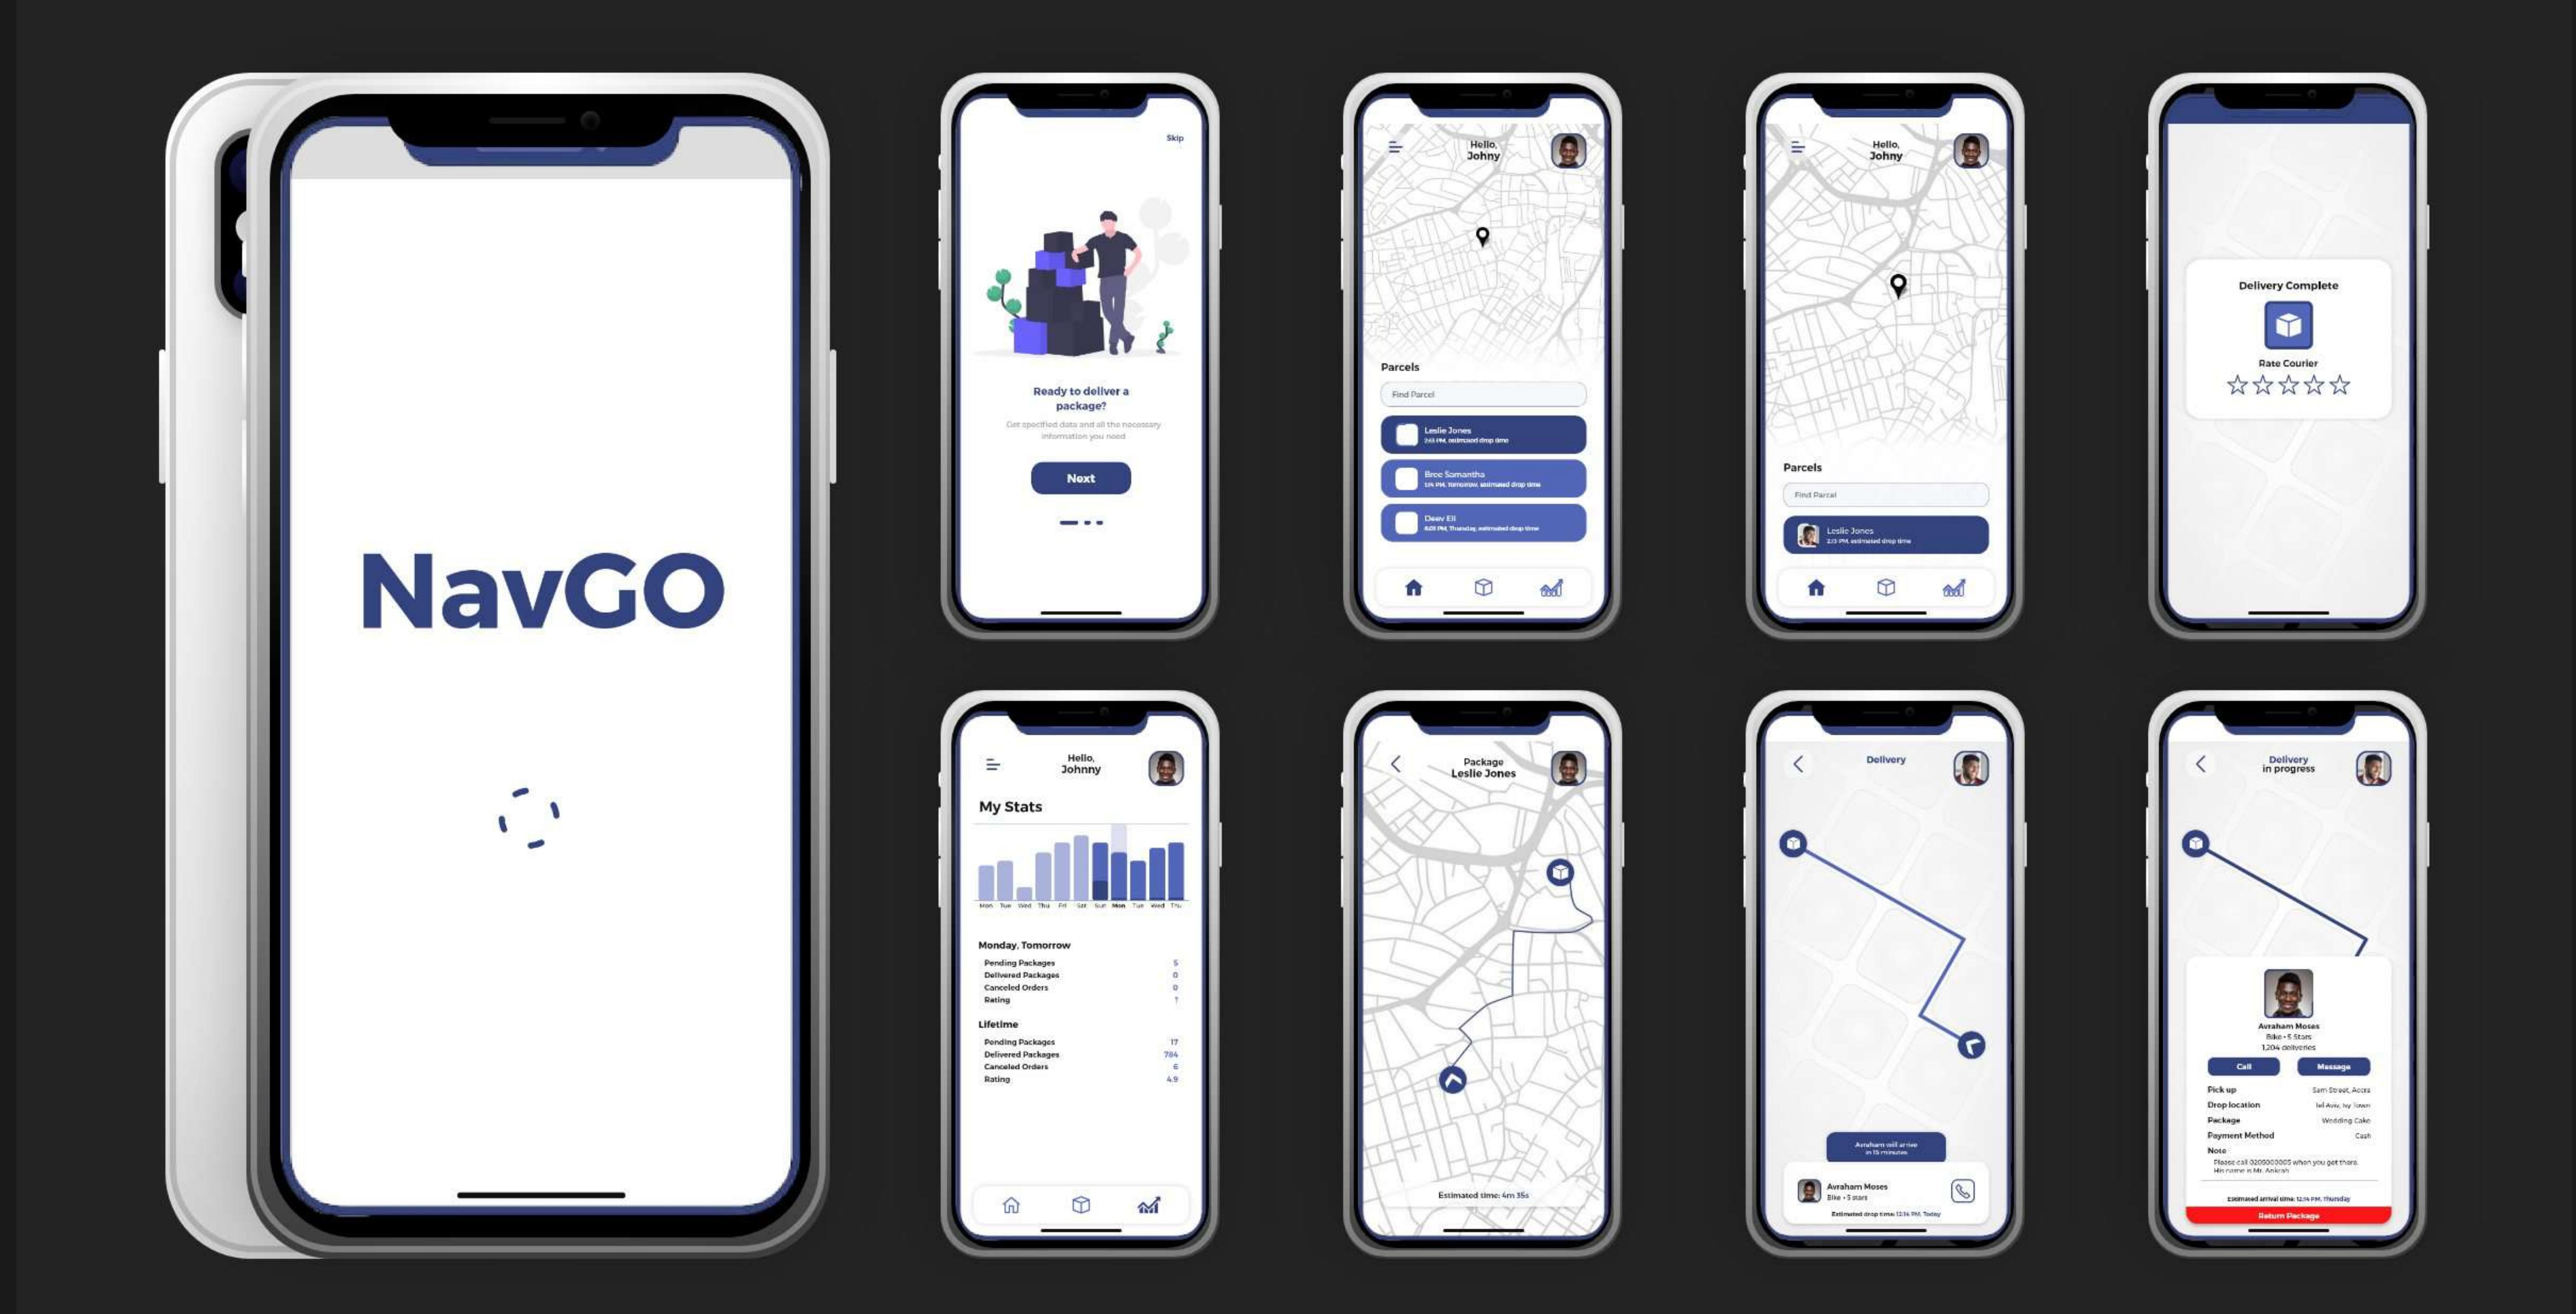

A university portal app that facilitates college applications for high school graduates and includes a career guidance feature. The design emphasis was on creating a user-friendly interface that simplifies the college application process and provides helpful career advice. This project allowed me to showcase my UI design skills and develop a practical solution for students.

Client: Nakama Tech

Year: 2020

Tools: Adobe XD, Photoshop, Illustrator

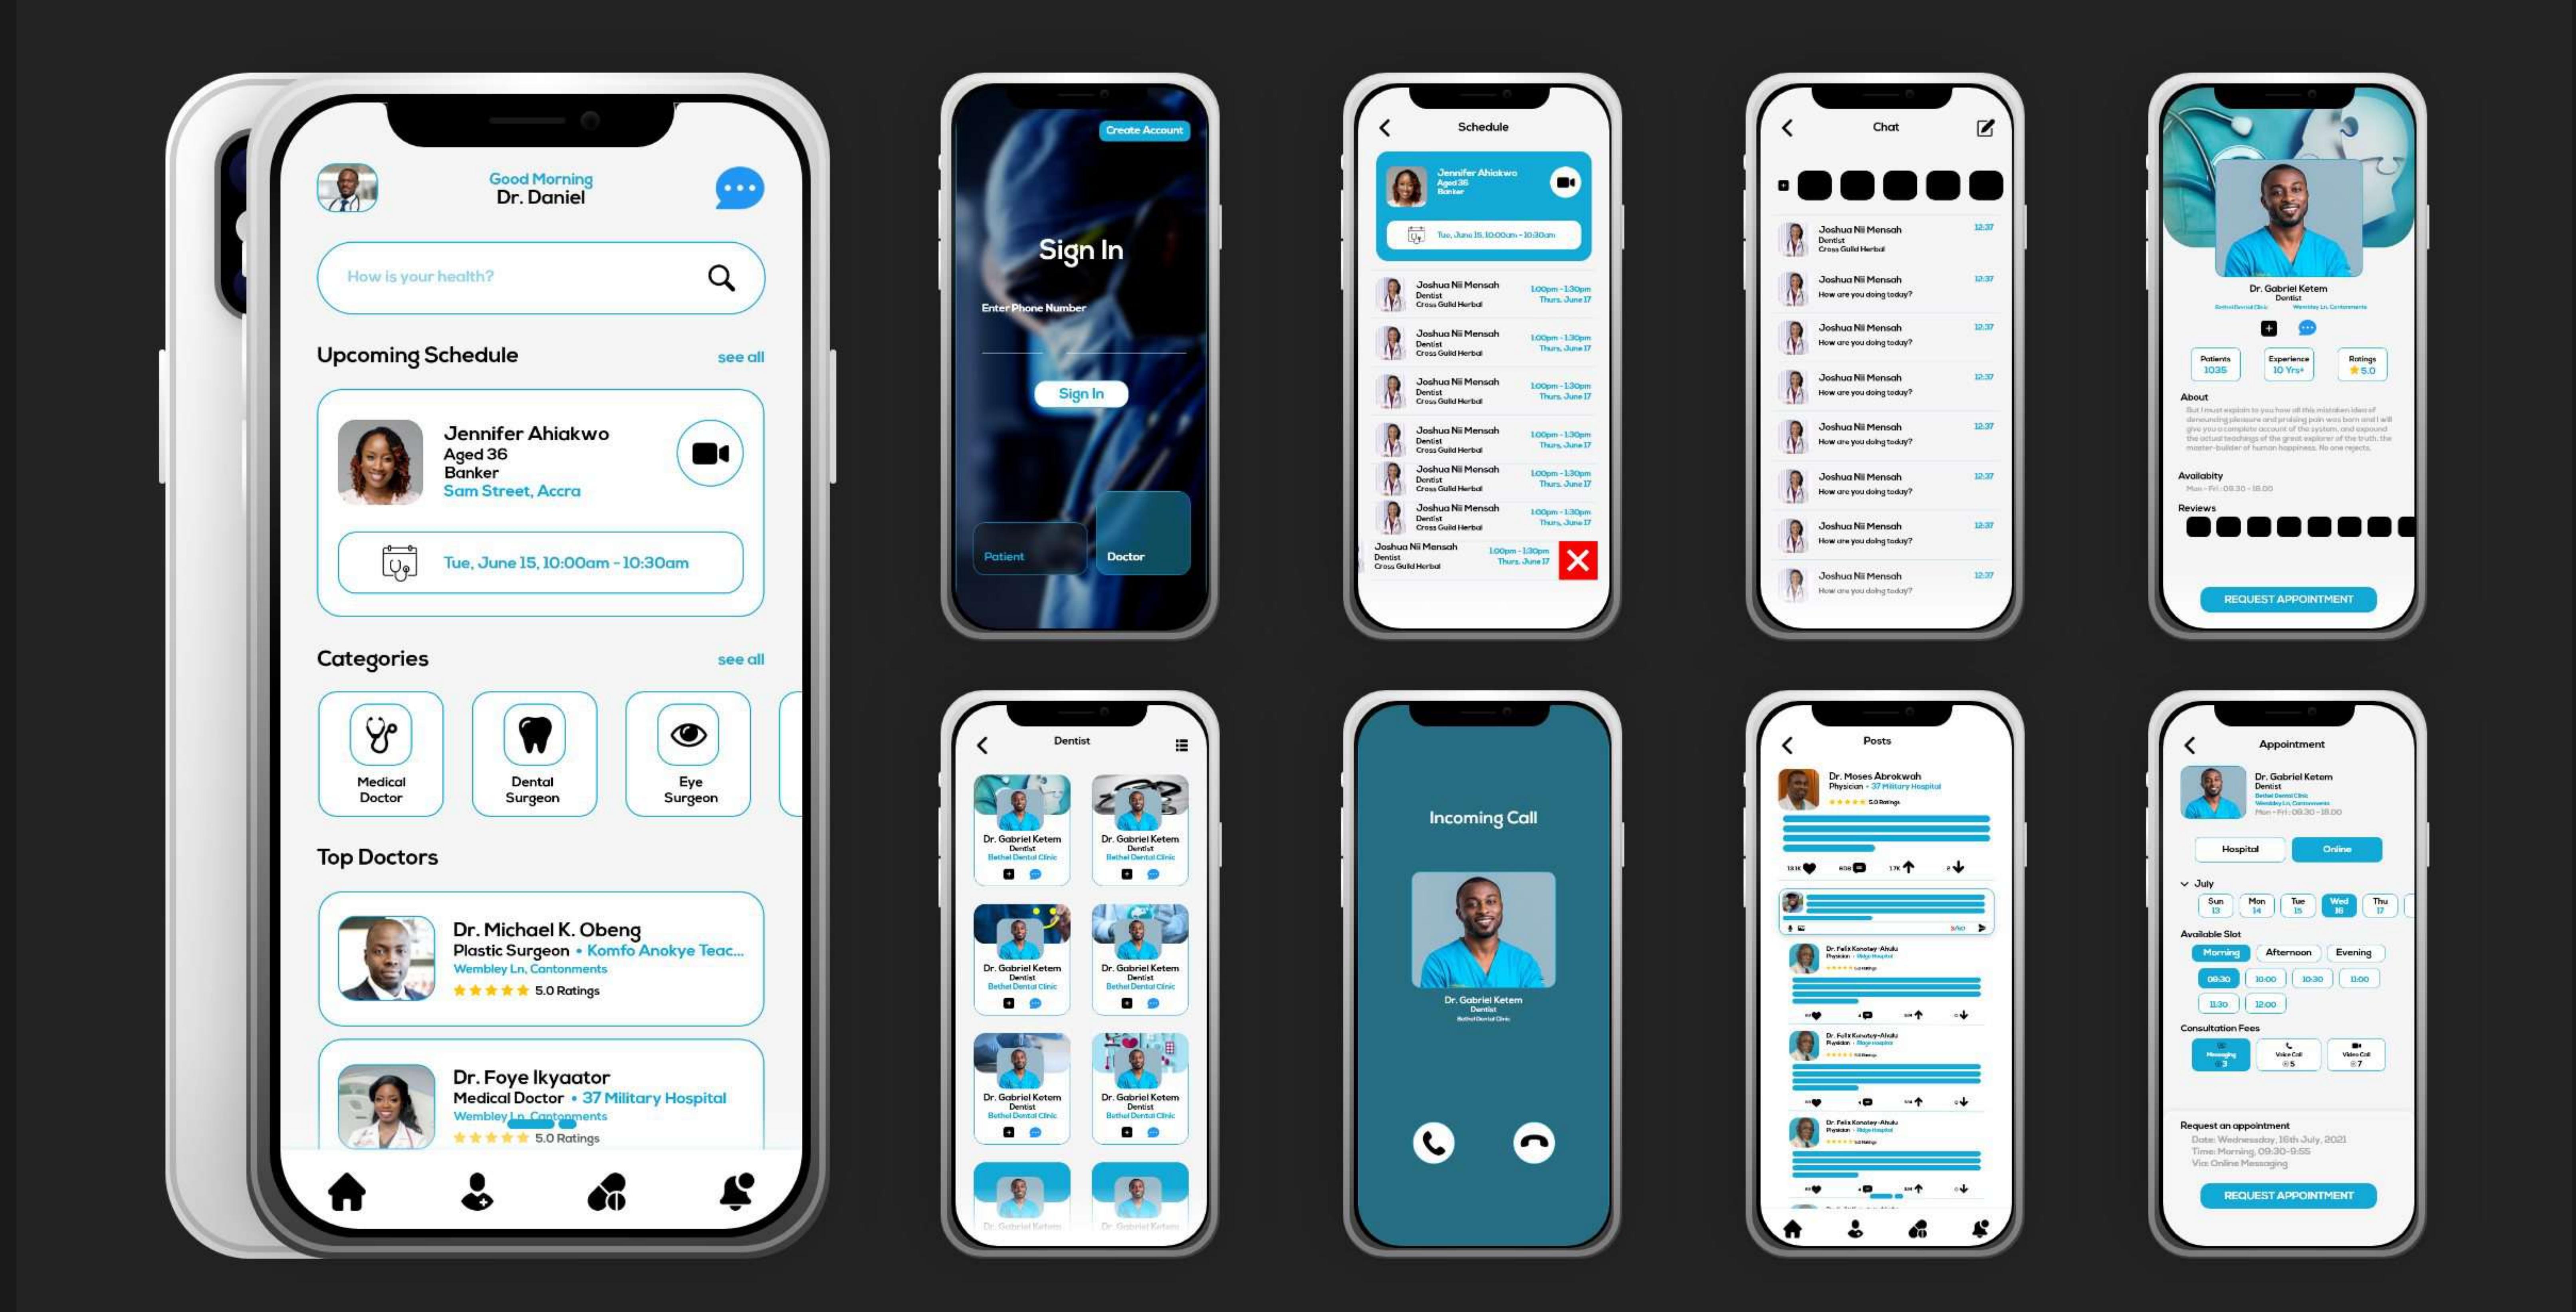

Work: User Experience, UI Design

NavGO - Freight Dispatch App

A UI for a freight dispatch app aimed at simplifying the dispatch process for shipping companies. The design focuses on streamlining workflow and providing clear, accessible information for dispatchers and consumers. This project allowed me to showcase my skills in UI design and develop a functional and efficient product for the transportation industry.

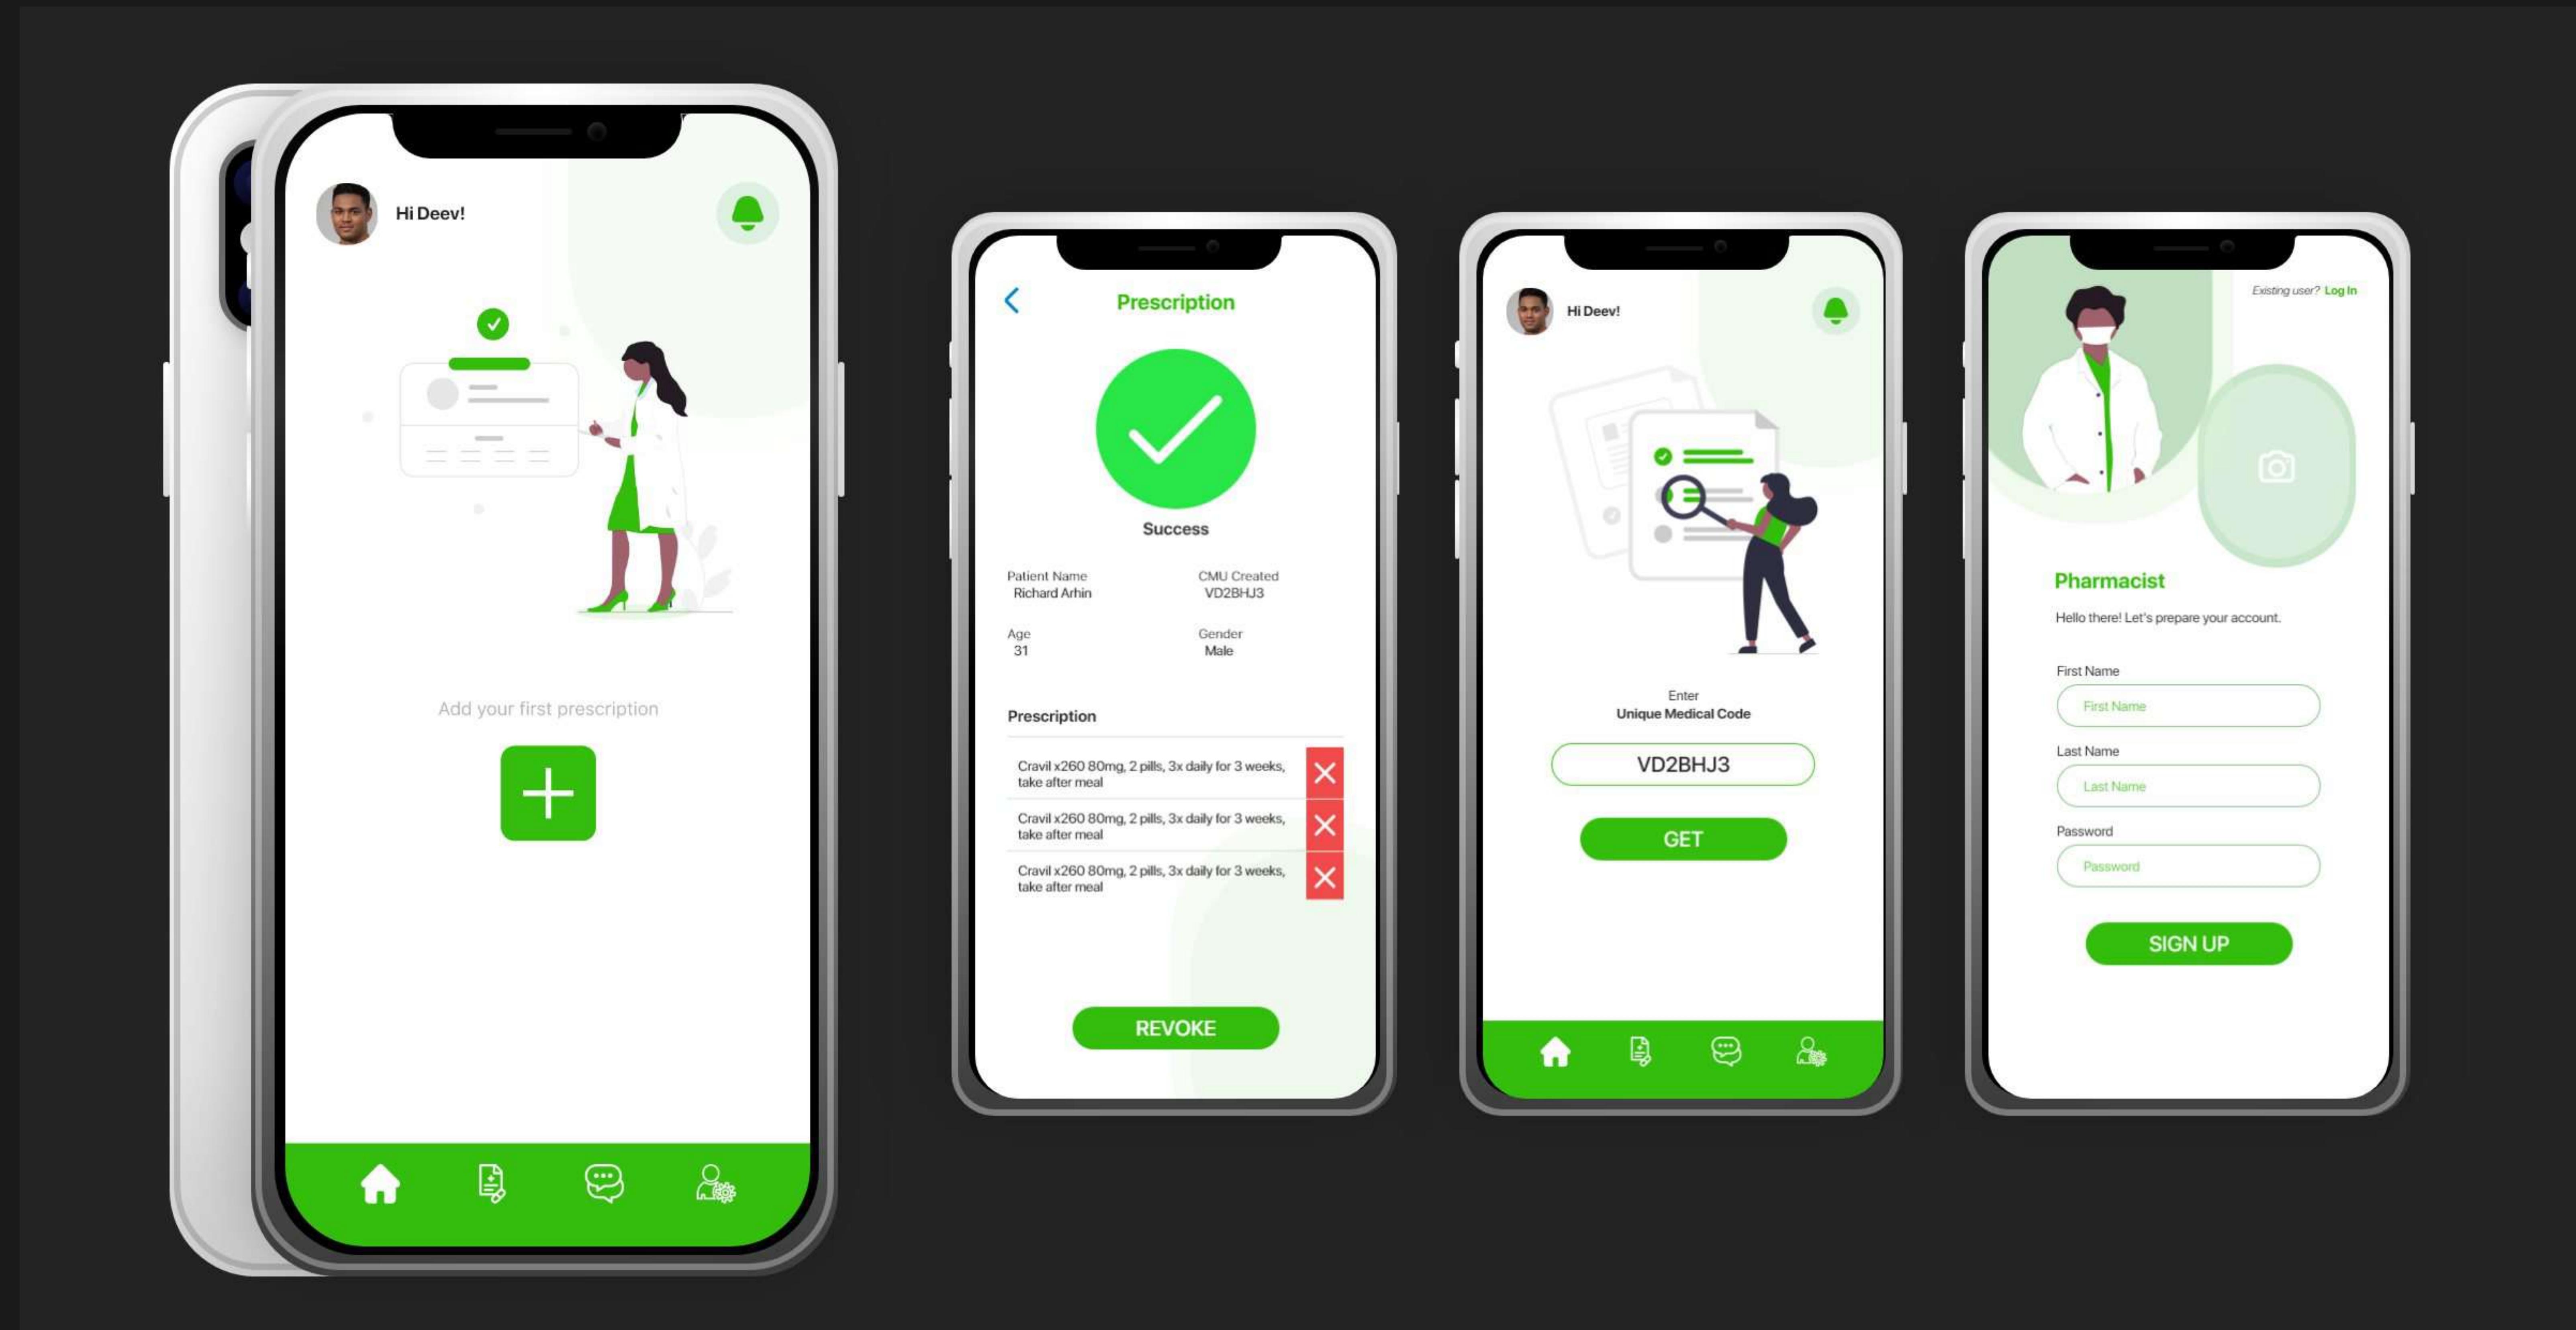

Client: Nakama Tech
Year: 2021
Tools: Adobe XD, Photoshop, Illustrator
Work: Customer Journey, User Experience, UI Design

E-Health - Health & Medicine Management App

A telemedicine company aimed at improving access to healthcare. The design focuses on creating a user-friendly and accessible platform for virtual medical consultations. This project allowed me to showcase my skills in UI design and develop a product aimed at improving healthcare delivery and accessibility.

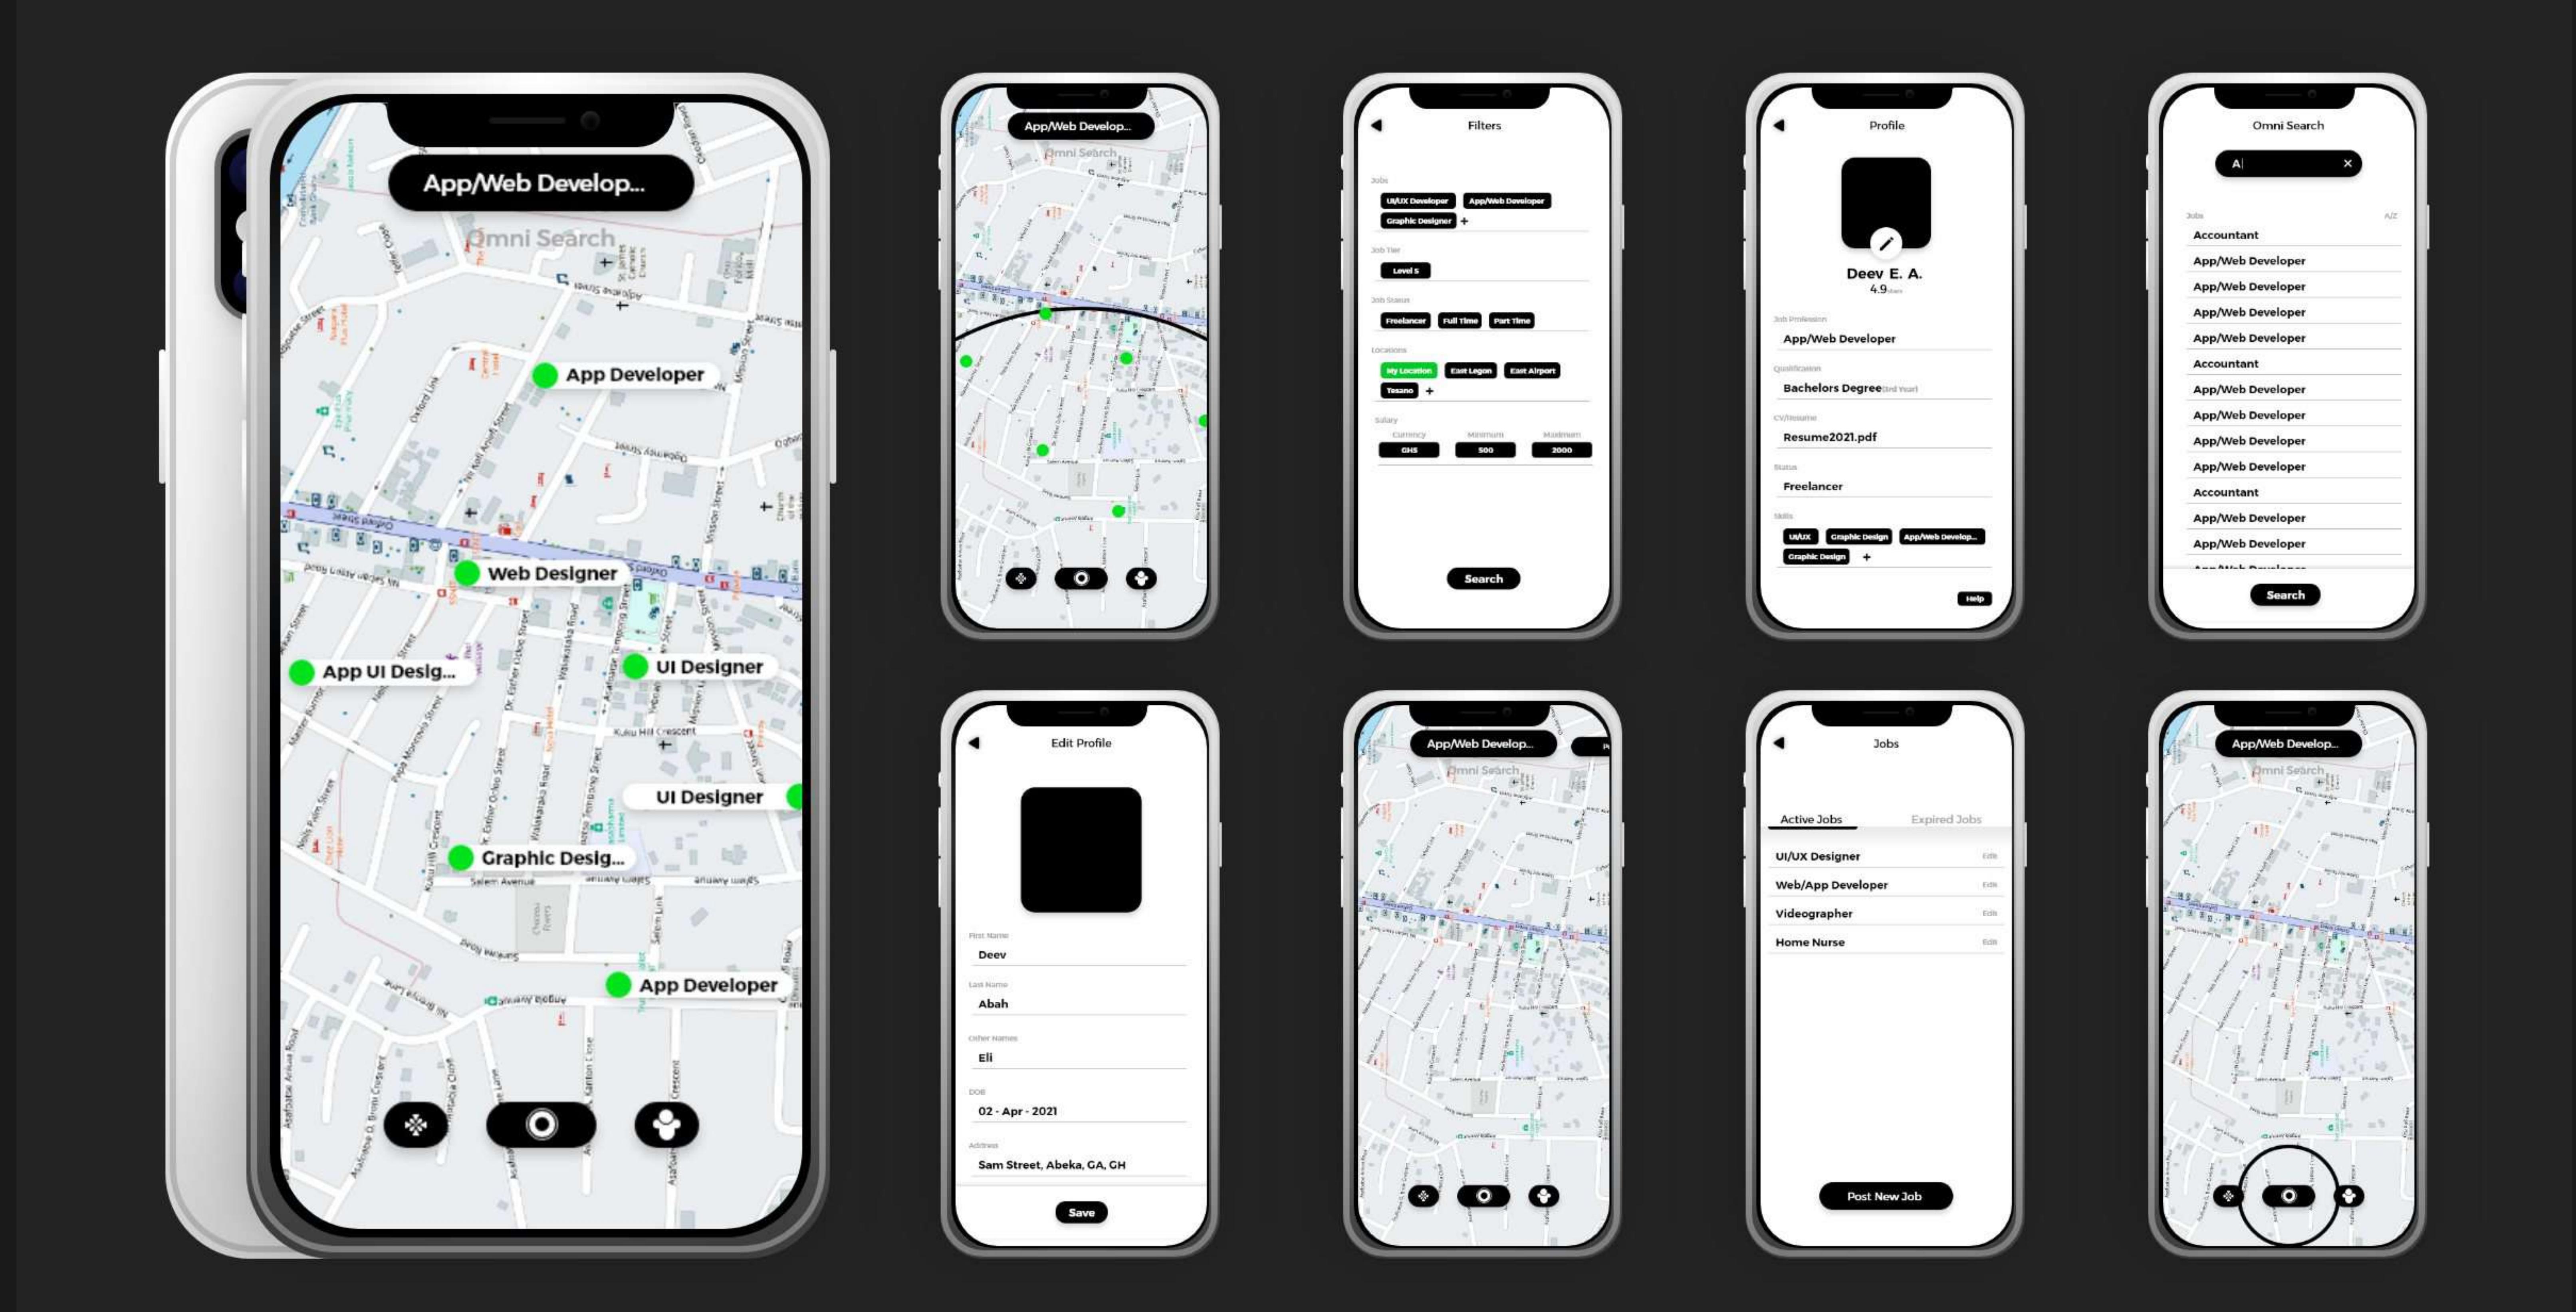

Client: Mr. Fred Morgan
Year: 2021
Tools: Adobe XD, Photoshop, Illustrator, VS Code
Work: Customer Journey, User Experience, UI Design, Flutter Mobile Development

MTN Benin, OrdoTech – Medical App

A UI for a pharmacist and prescriber app aimed at streamlining the prescription process. The design focuses on creating a clear and efficient platform for communication and medication management. This project allowed me to showcase my skills in UI design and develop a product aimed at improving the healthcare experience for both pharmacists and prescribers.

Client: **MTN Benin via Techneutron**
Year: **2022**
Tools: **Adobe XD, Photoshop, Illustrator**
Work: **Customer Journey, User Experience, UI Design**

Pro Jobs – Job Search App

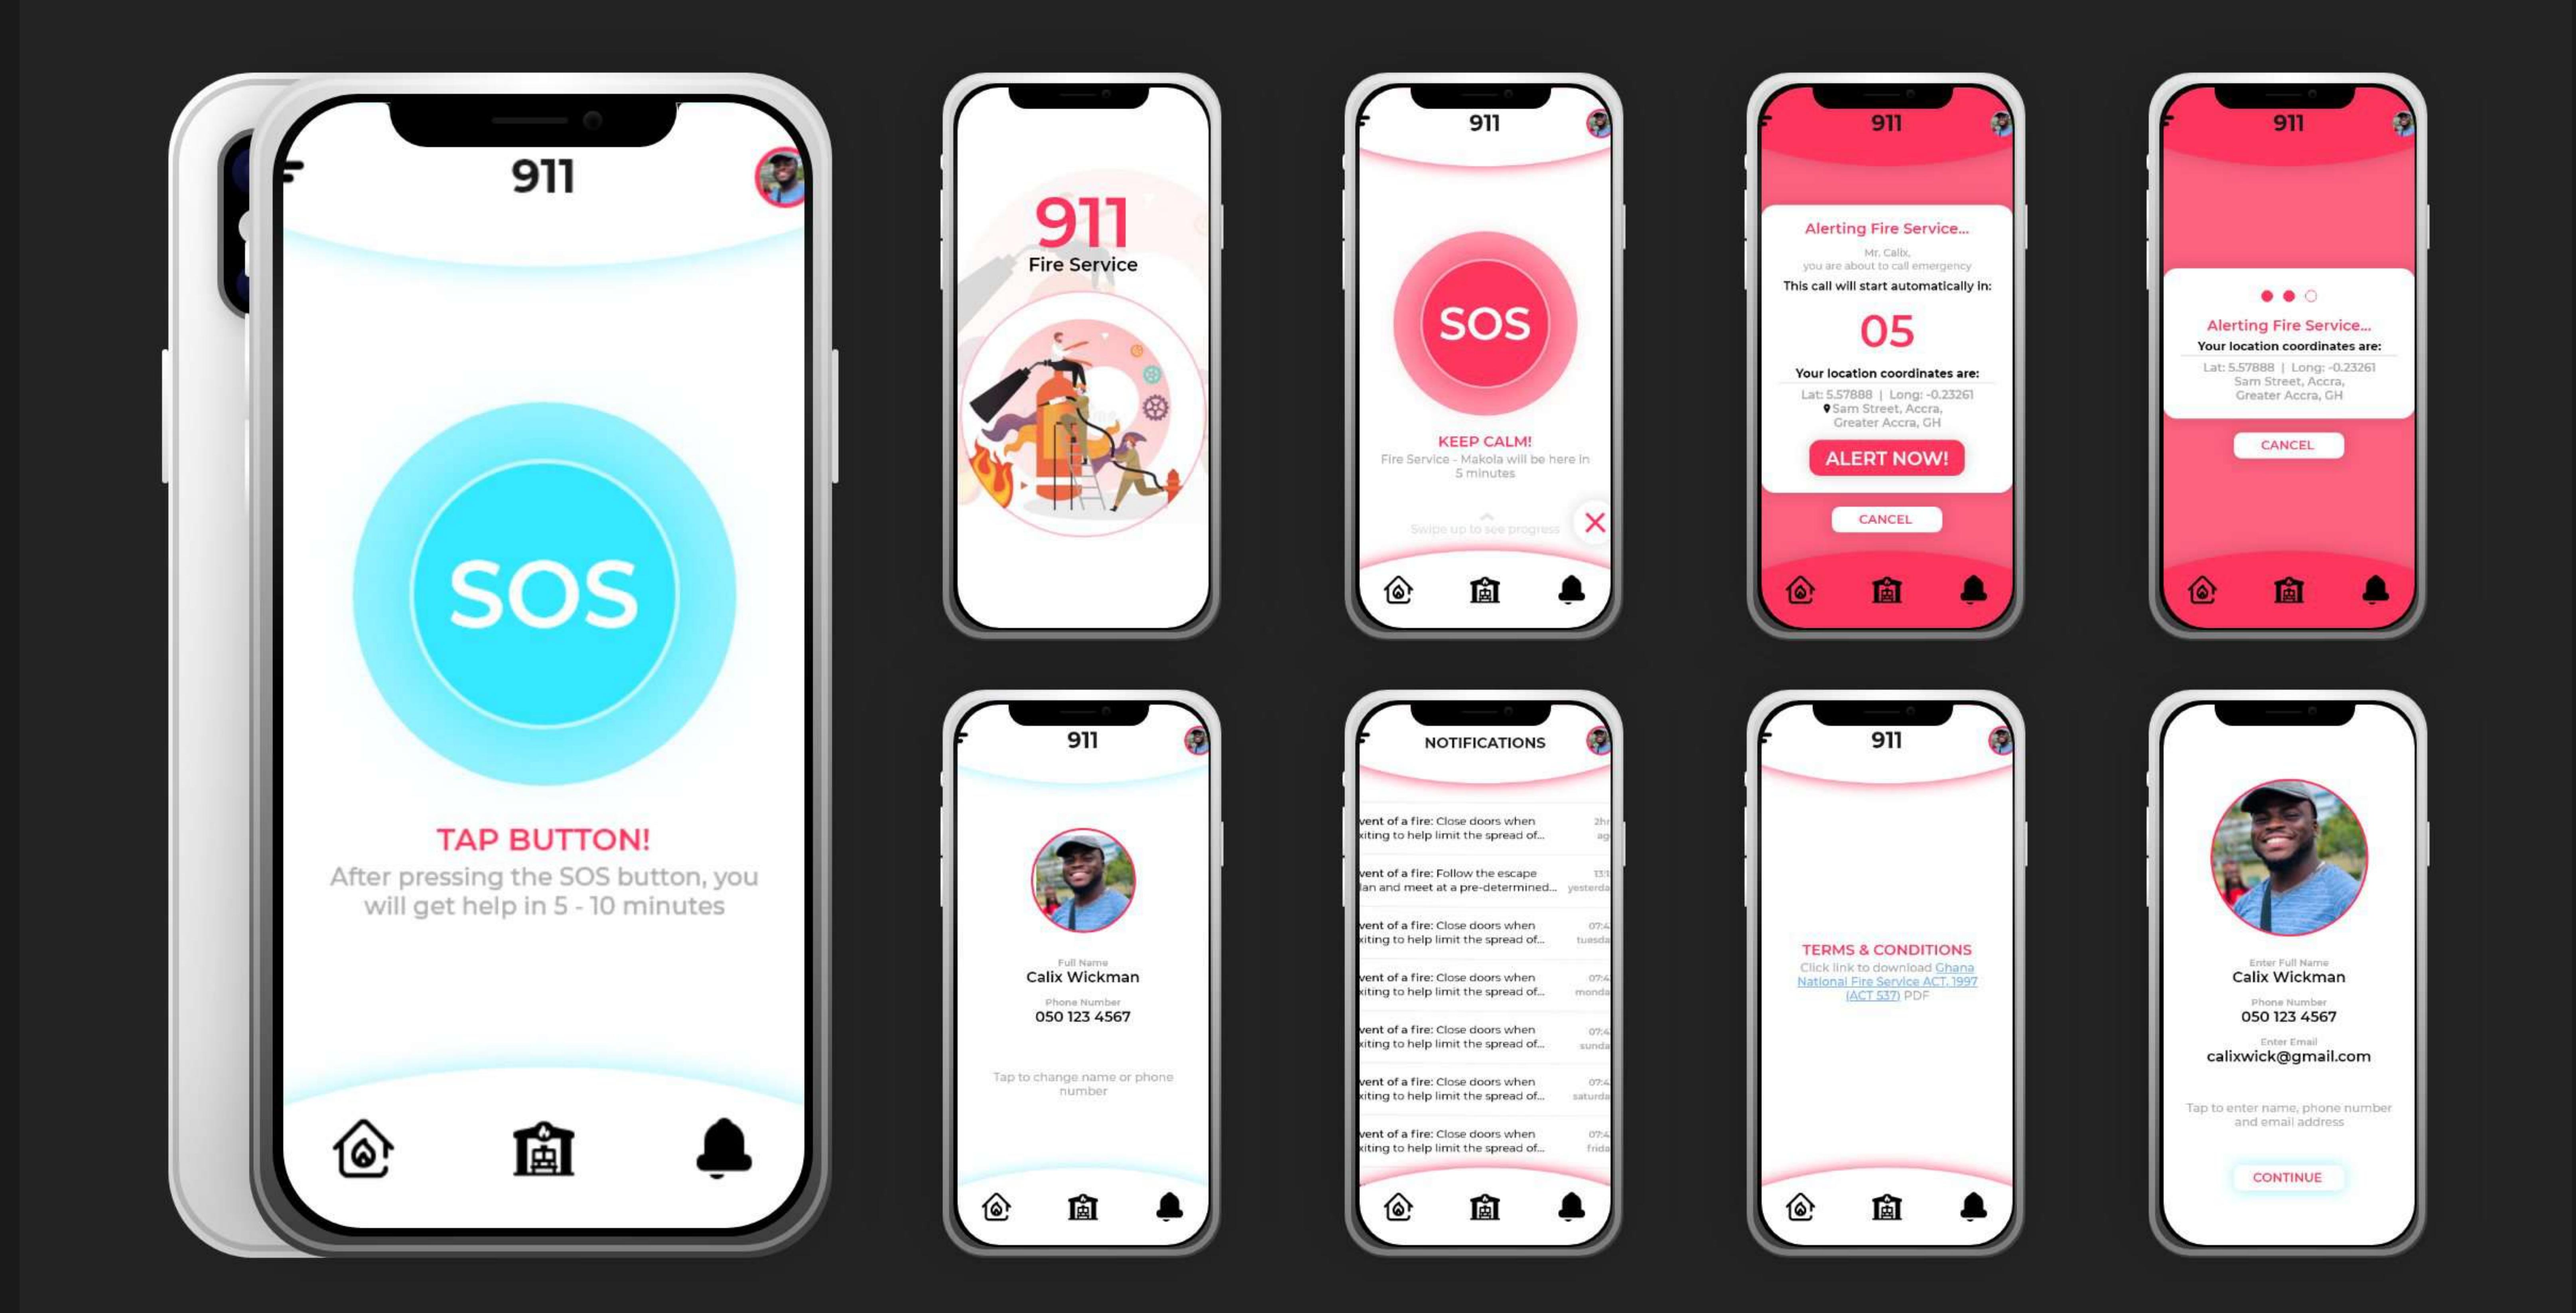

As a personal project, I designed a UI for a job search app targeting local job seekers with various skill sets. The design focuses on creating an intuitive and user-friendly interface for searching and applying for jobs, as well as tracking job search progress. This project allowed me to develop my skills in UI design and create a product aimed at helping job seekers find employment in their local area.

Client: Personal Project

Year: 2020

Tools: Adobe XD, Photoshop, Illustrator

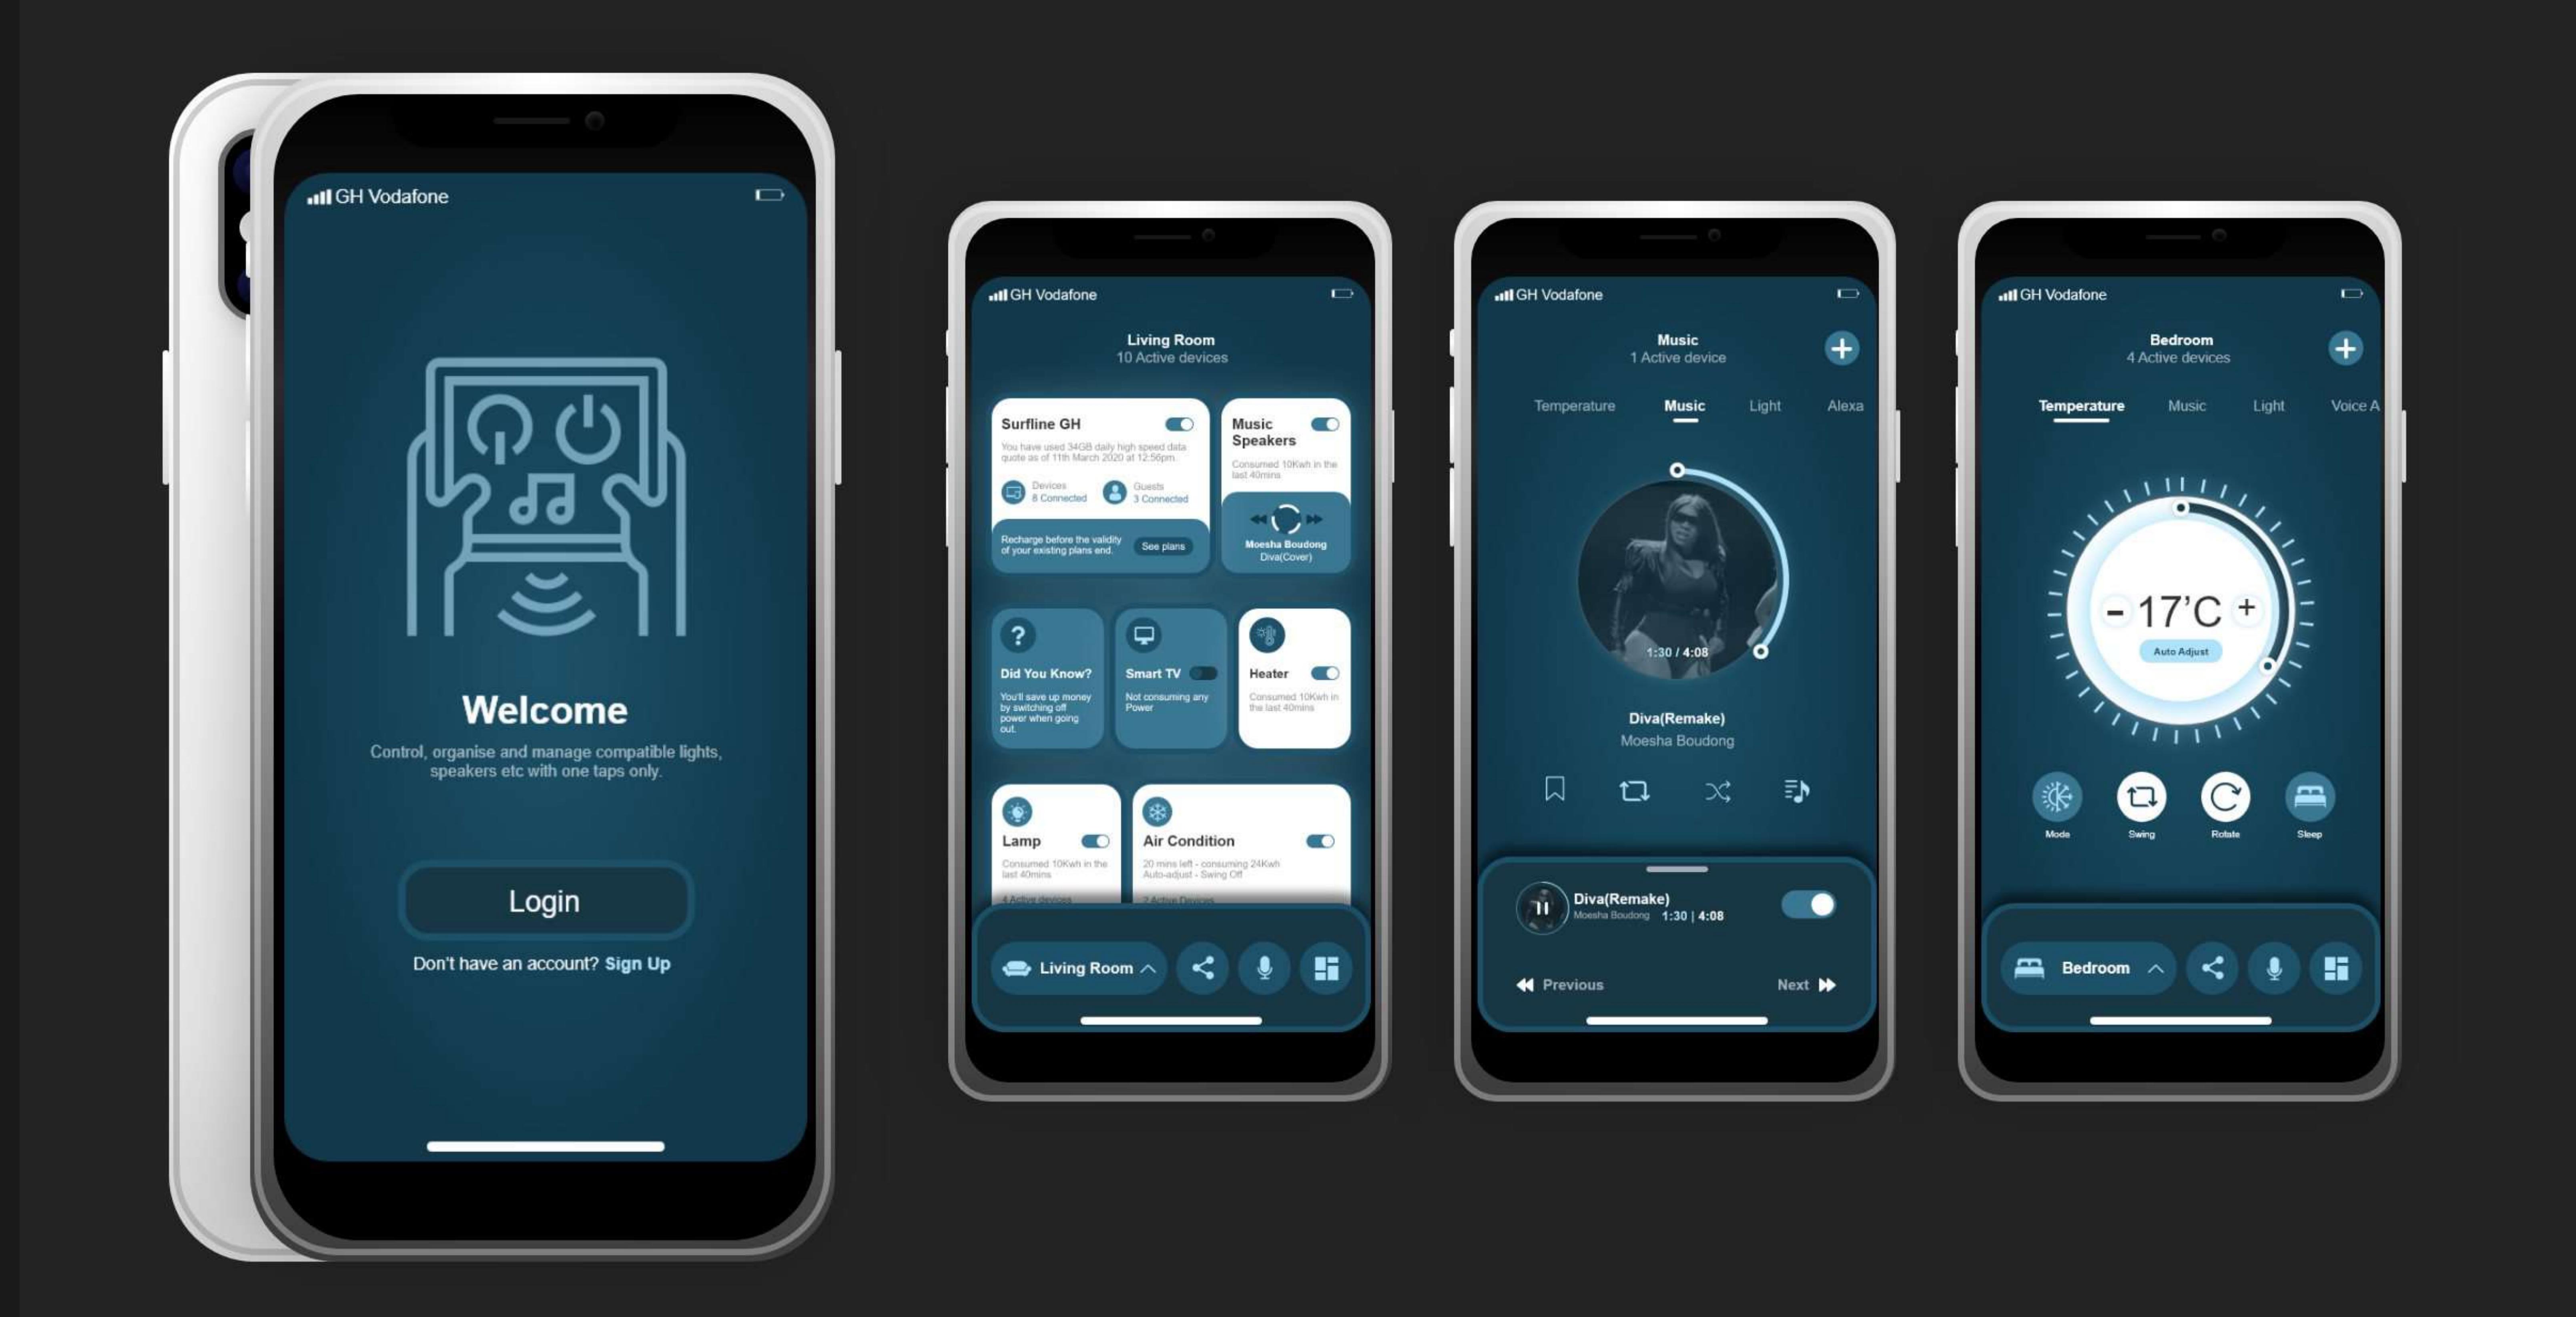

Work: Customer Journey, User Experience

Fire Service 191 – Fire Alert Tracking App

Designed a UI for a fire service alert call app to quickly respond to outbreaks. The design emphasizes efficient communication and clear information display for firefighters. This project allowed me to apply my UI design skills to create a product aimed at improving emergency response times and increasing public safety.

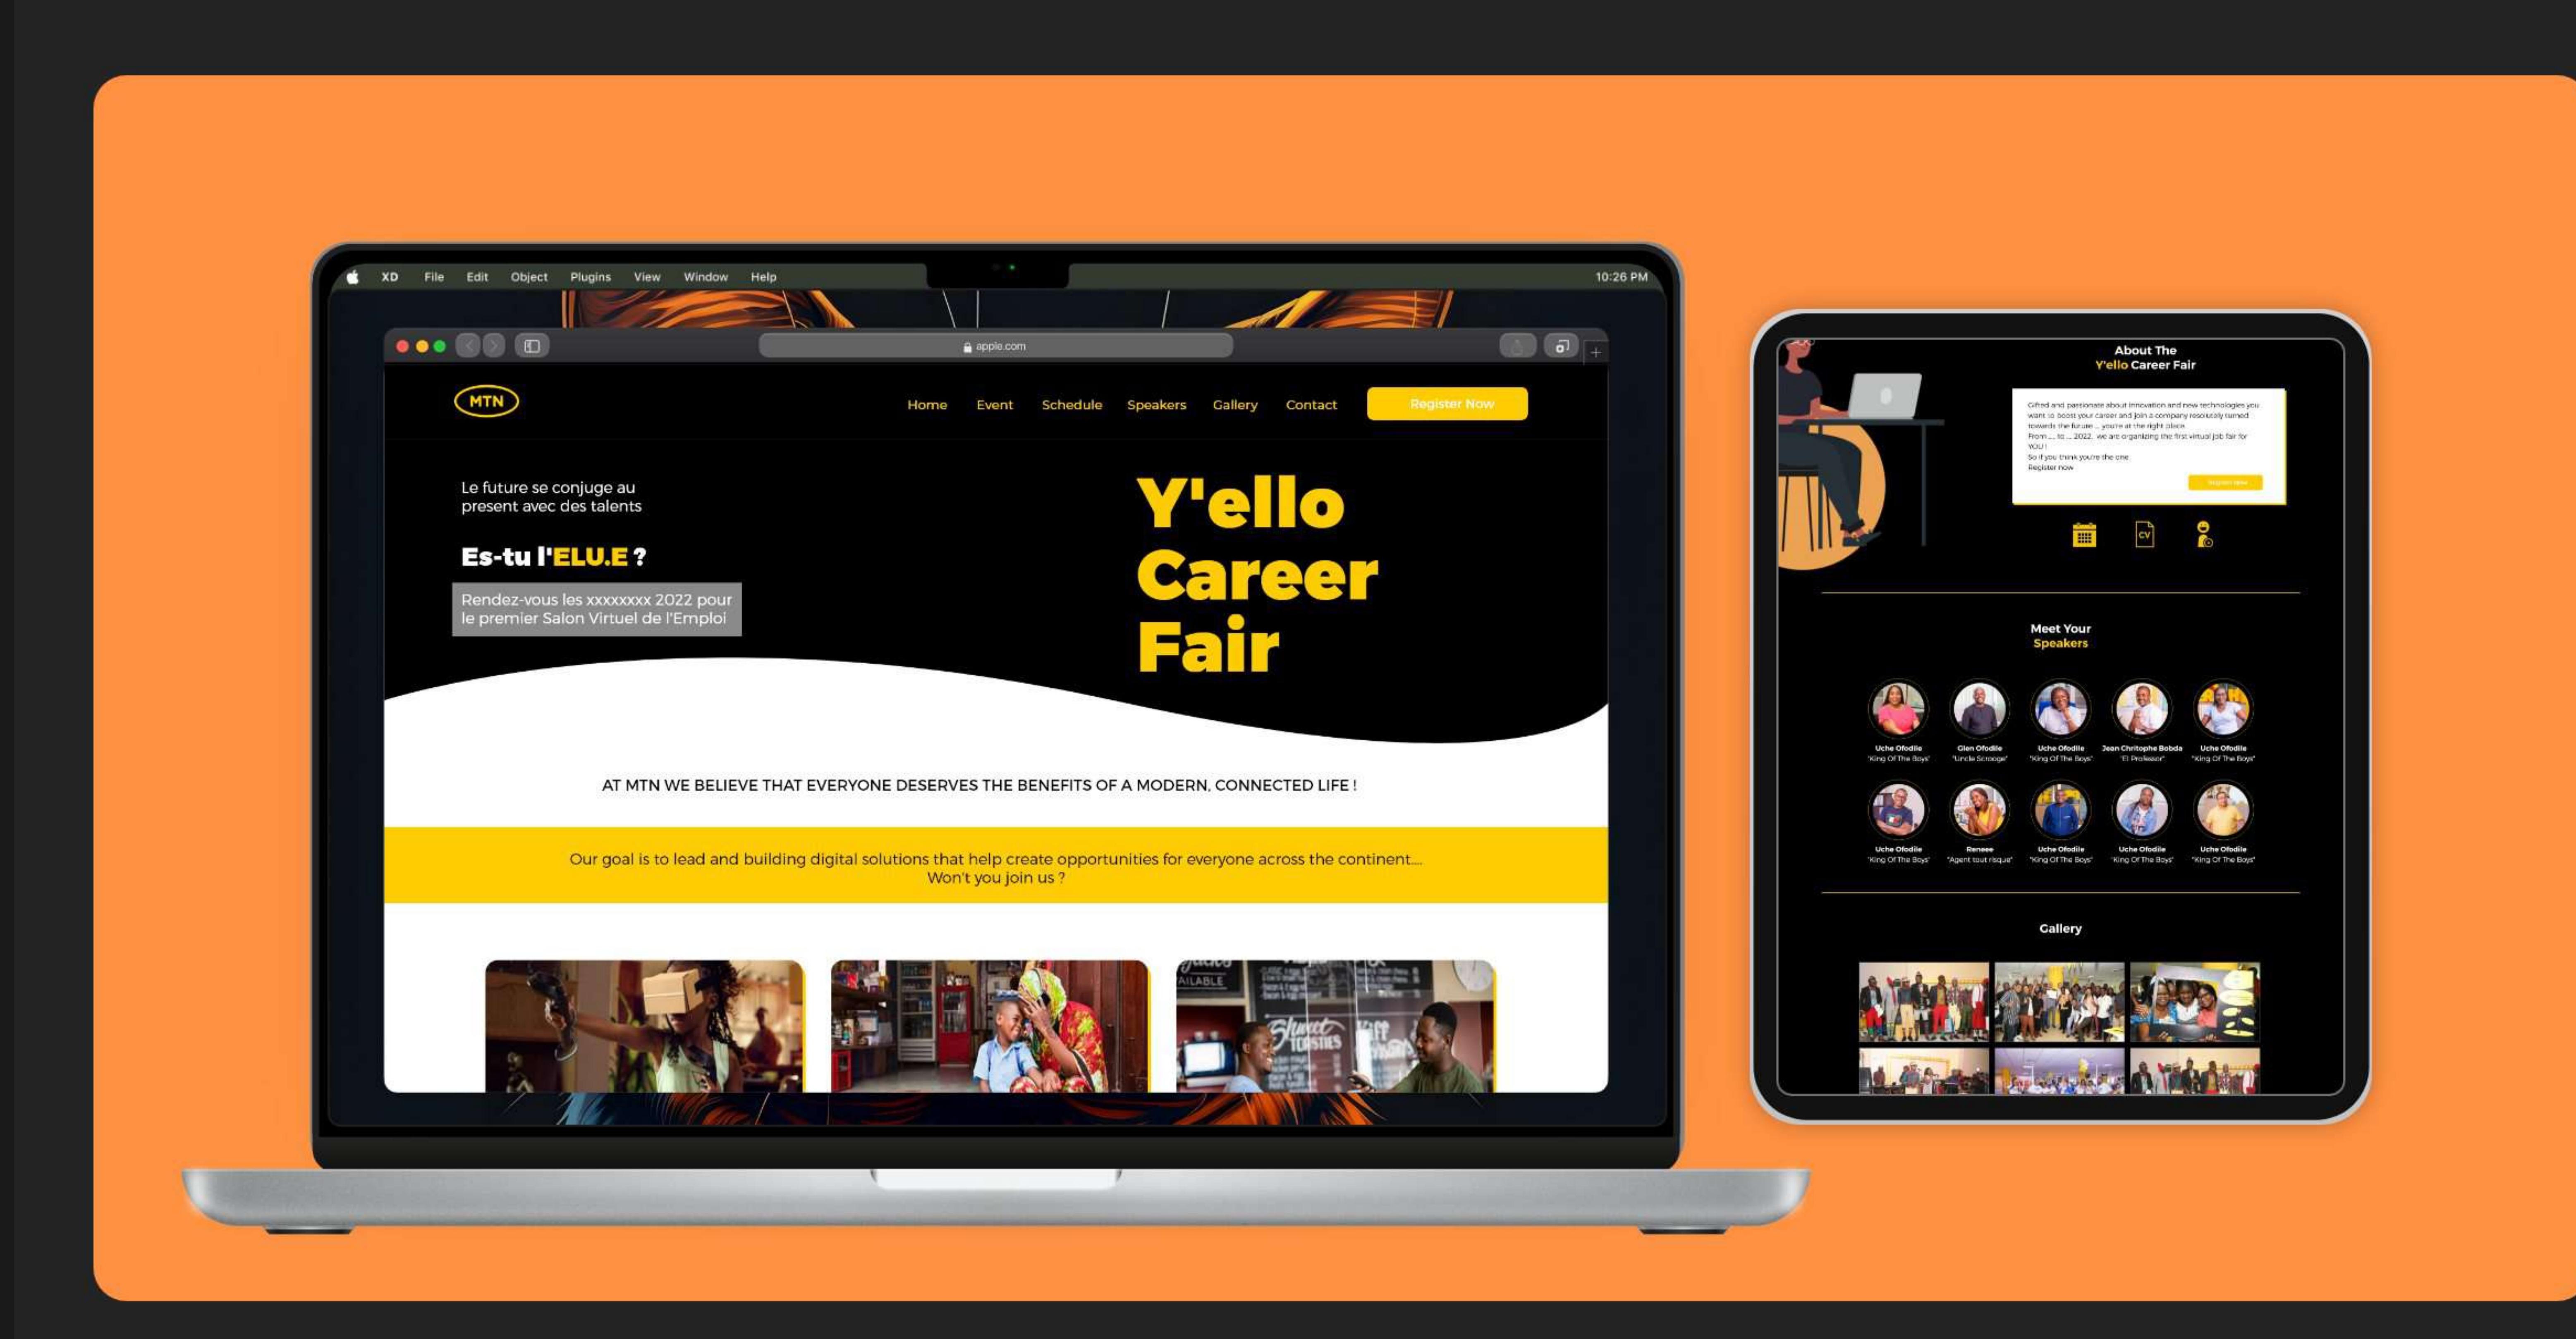

Client: Mr. Calistus
Year: 2020
Tools: Adobe XD, Photoshop, Illustrator, VS Code
Work: Customer Journey, User Experience, UI Design, Flutter Mobile Development

IOT Home Remote App

Designed a UI for an IOT home remote control app aimed at simplifying the management of connected devices. The design focuses on creating an intuitive and accessible interface for controlling and monitoring home appliances and systems. This project allowed me to showcase my skills in UI design and develop a product aimed at improving the connected home experience.

Client:	Blueticks Technology
Year:	2020
Tools:	Adobe XD, Photoshop, Illustrator
Work:	Customer Journey, User Experience, UI Design

MTN Benin - Career Fair

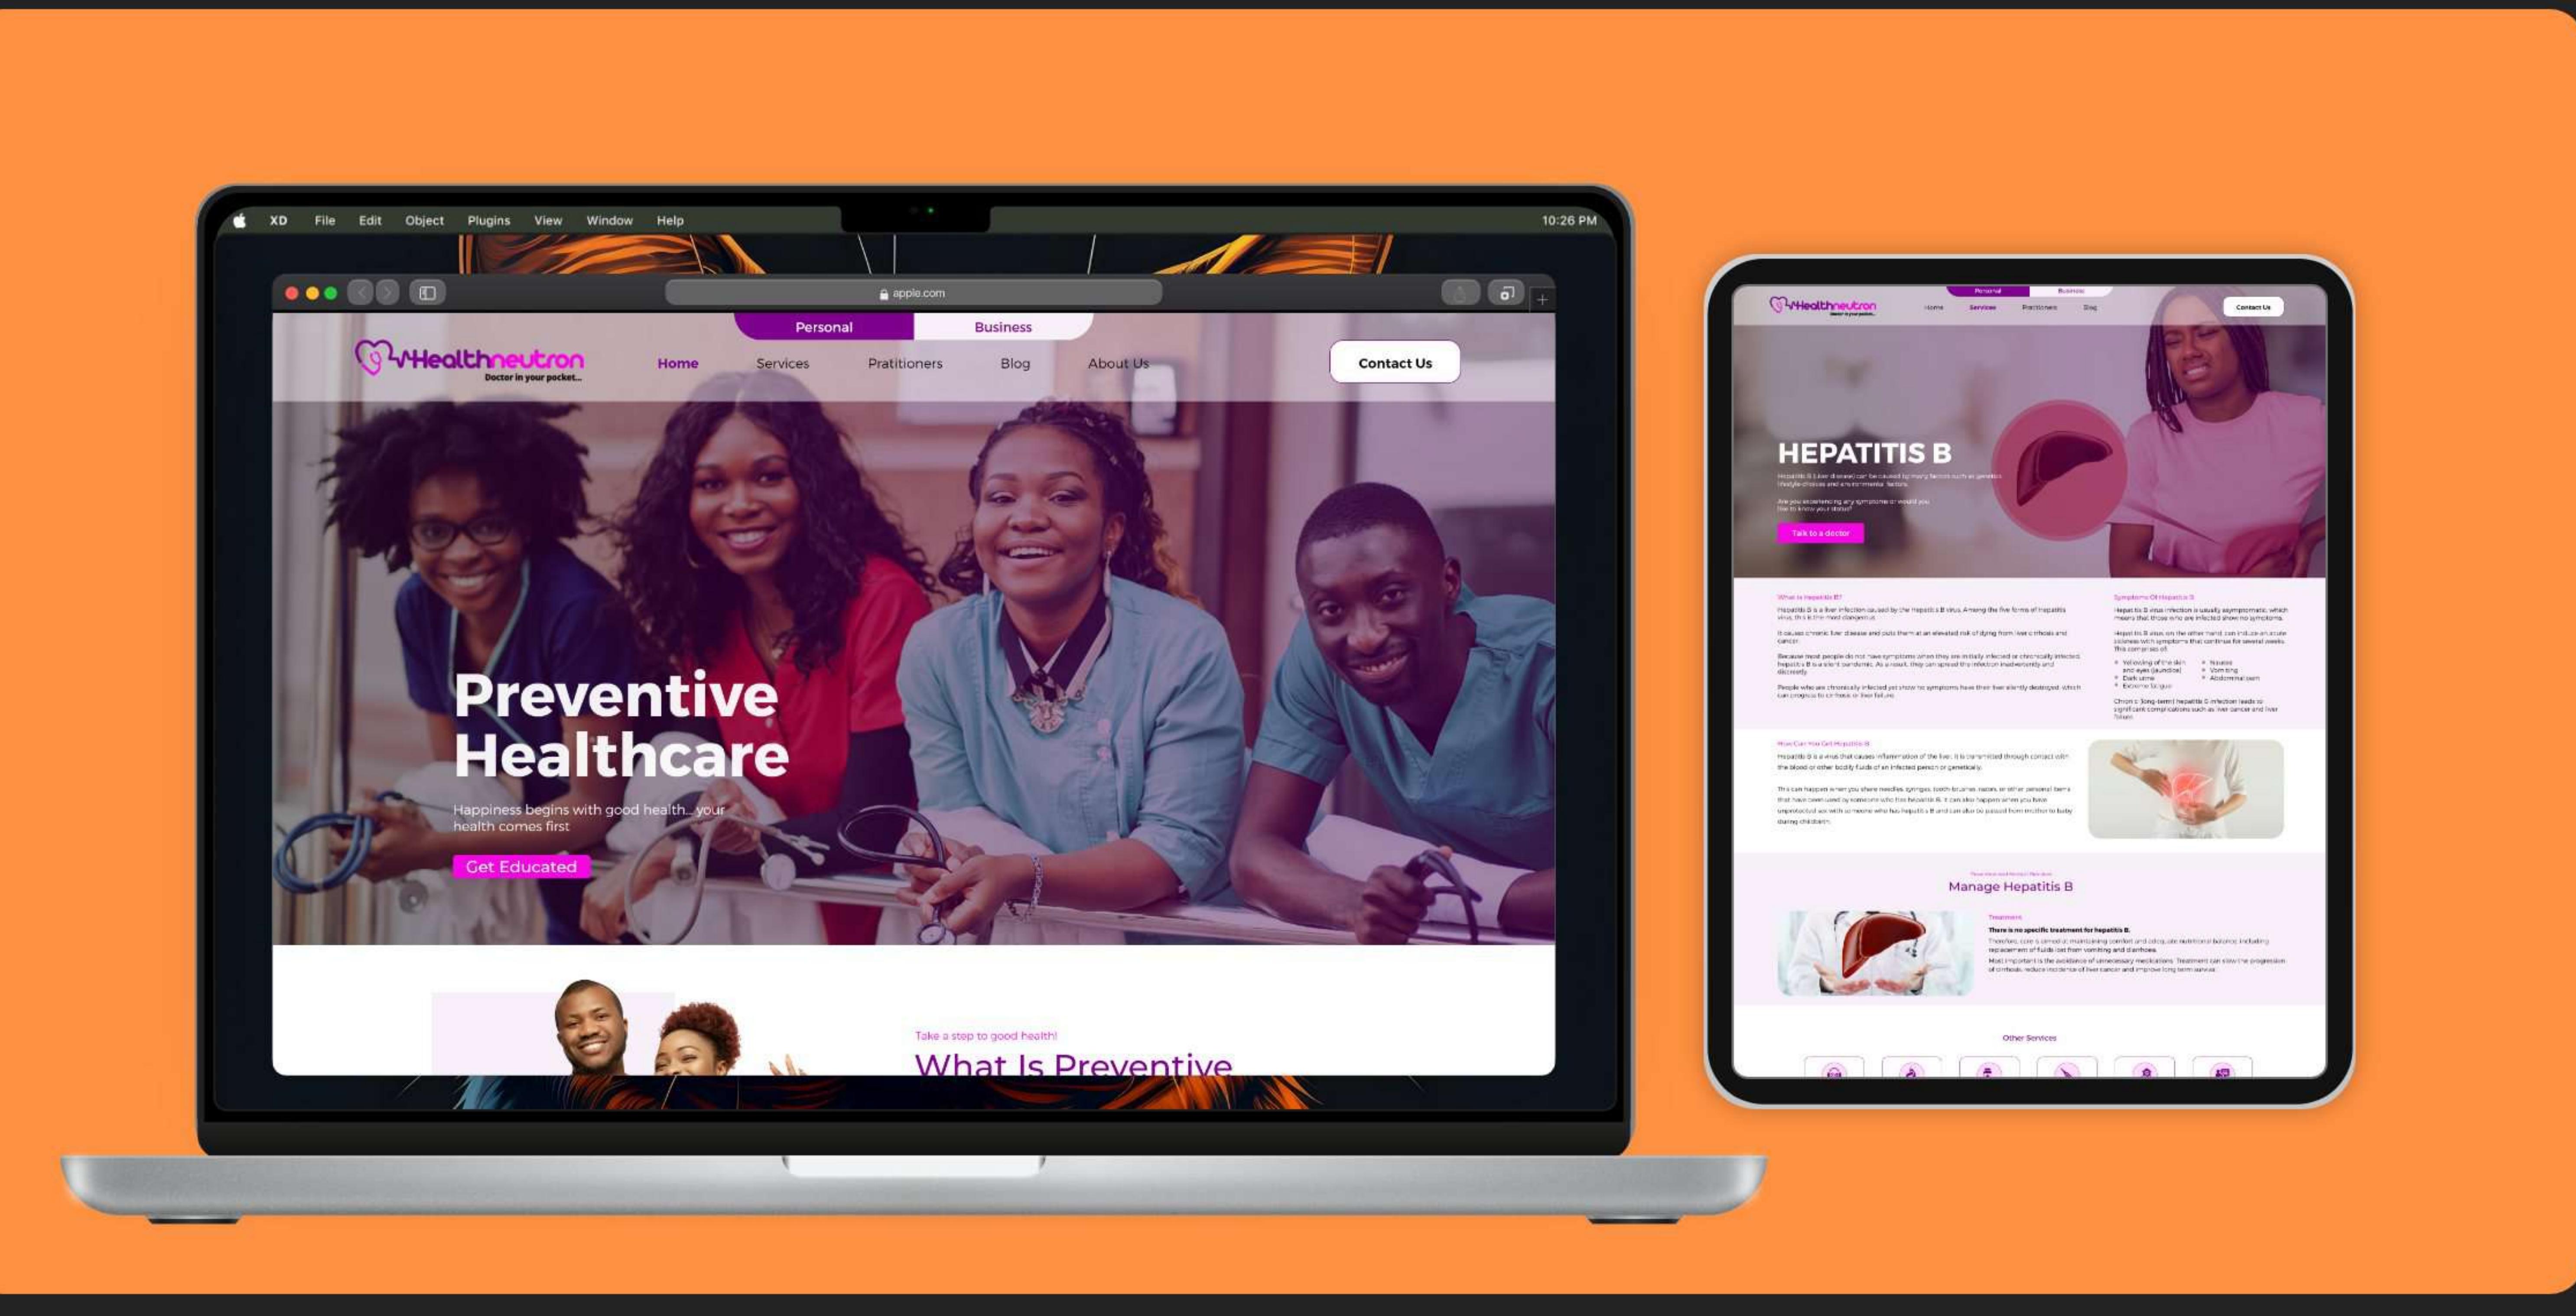

A UI for a career fair website for MTN, a telecommunications company. The design focuses on creating an intuitive and user-friendly platform for job seekers to learn about career opportunities and connect with the company. This project allowed me to showcase my skills in UI design and develop a product aimed at improving the recruitment experience for both MTN and job seekers.

Service: **MTN Benin via Axxend**

Year: **2022**

Tools: **Adobe XD, Photoshop, Illustrator, WordPress**

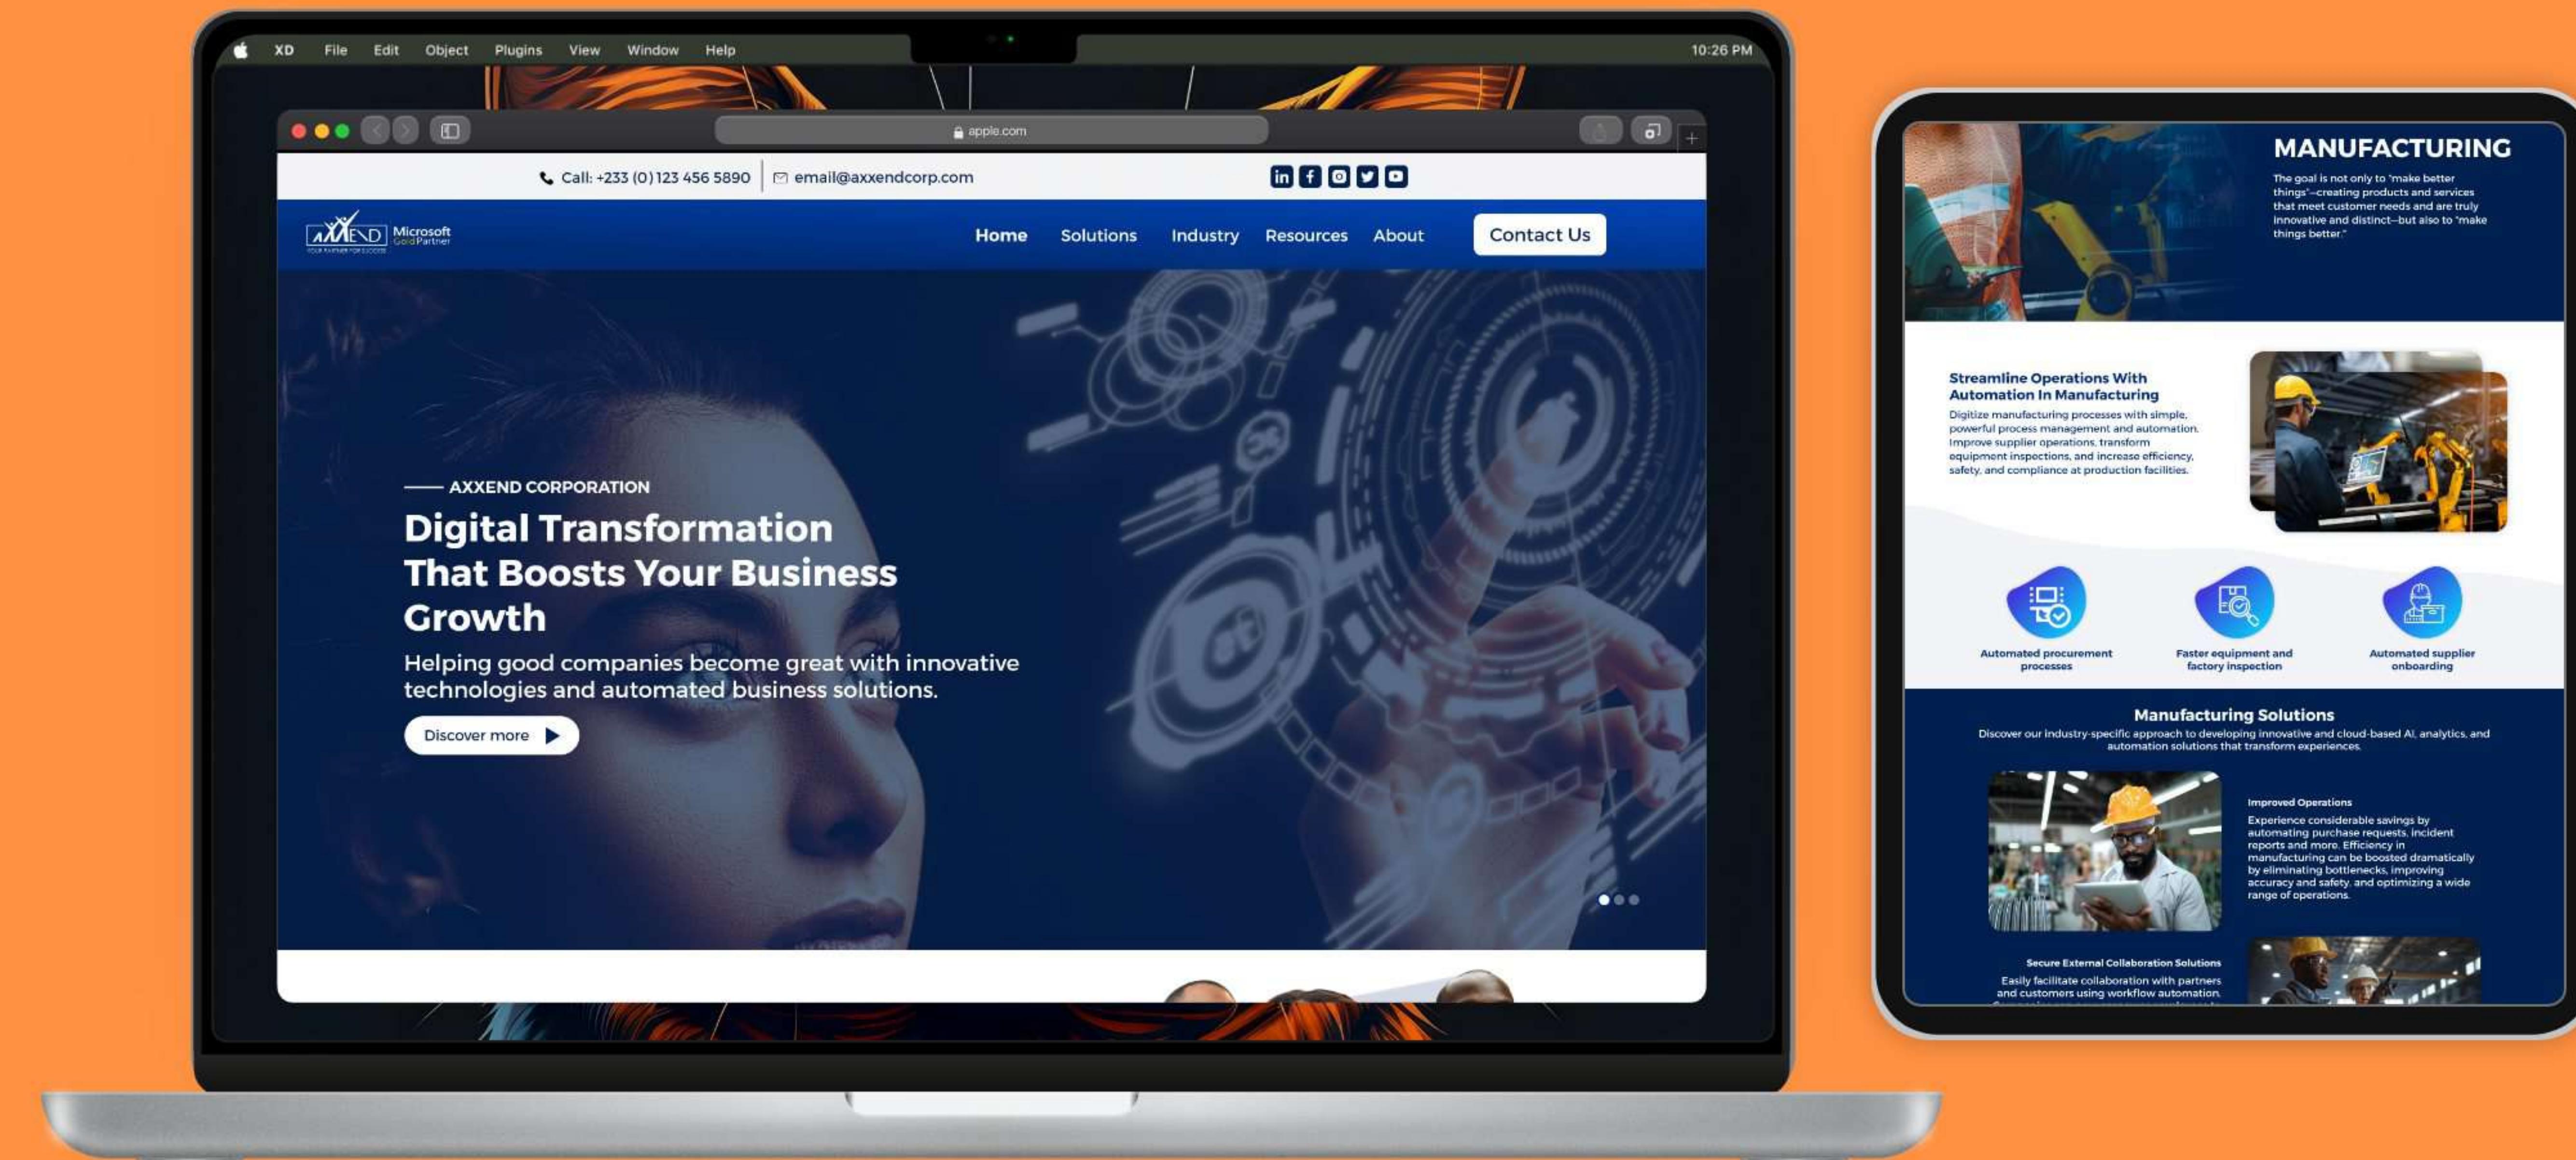

Work: **Customer Journey, User Experience, UI Design, Web Development**

HealthNeutron - Telemedicine Website

Redesigned the website for a telemedicine company offering services and training in preventive healthcare. The redesign focused on creating a user-friendly and visually appealing platform for promoting the company's services and mission. This project allowed me to apply my UI design skills and create a website that effectively communicates the company's values and offerings.

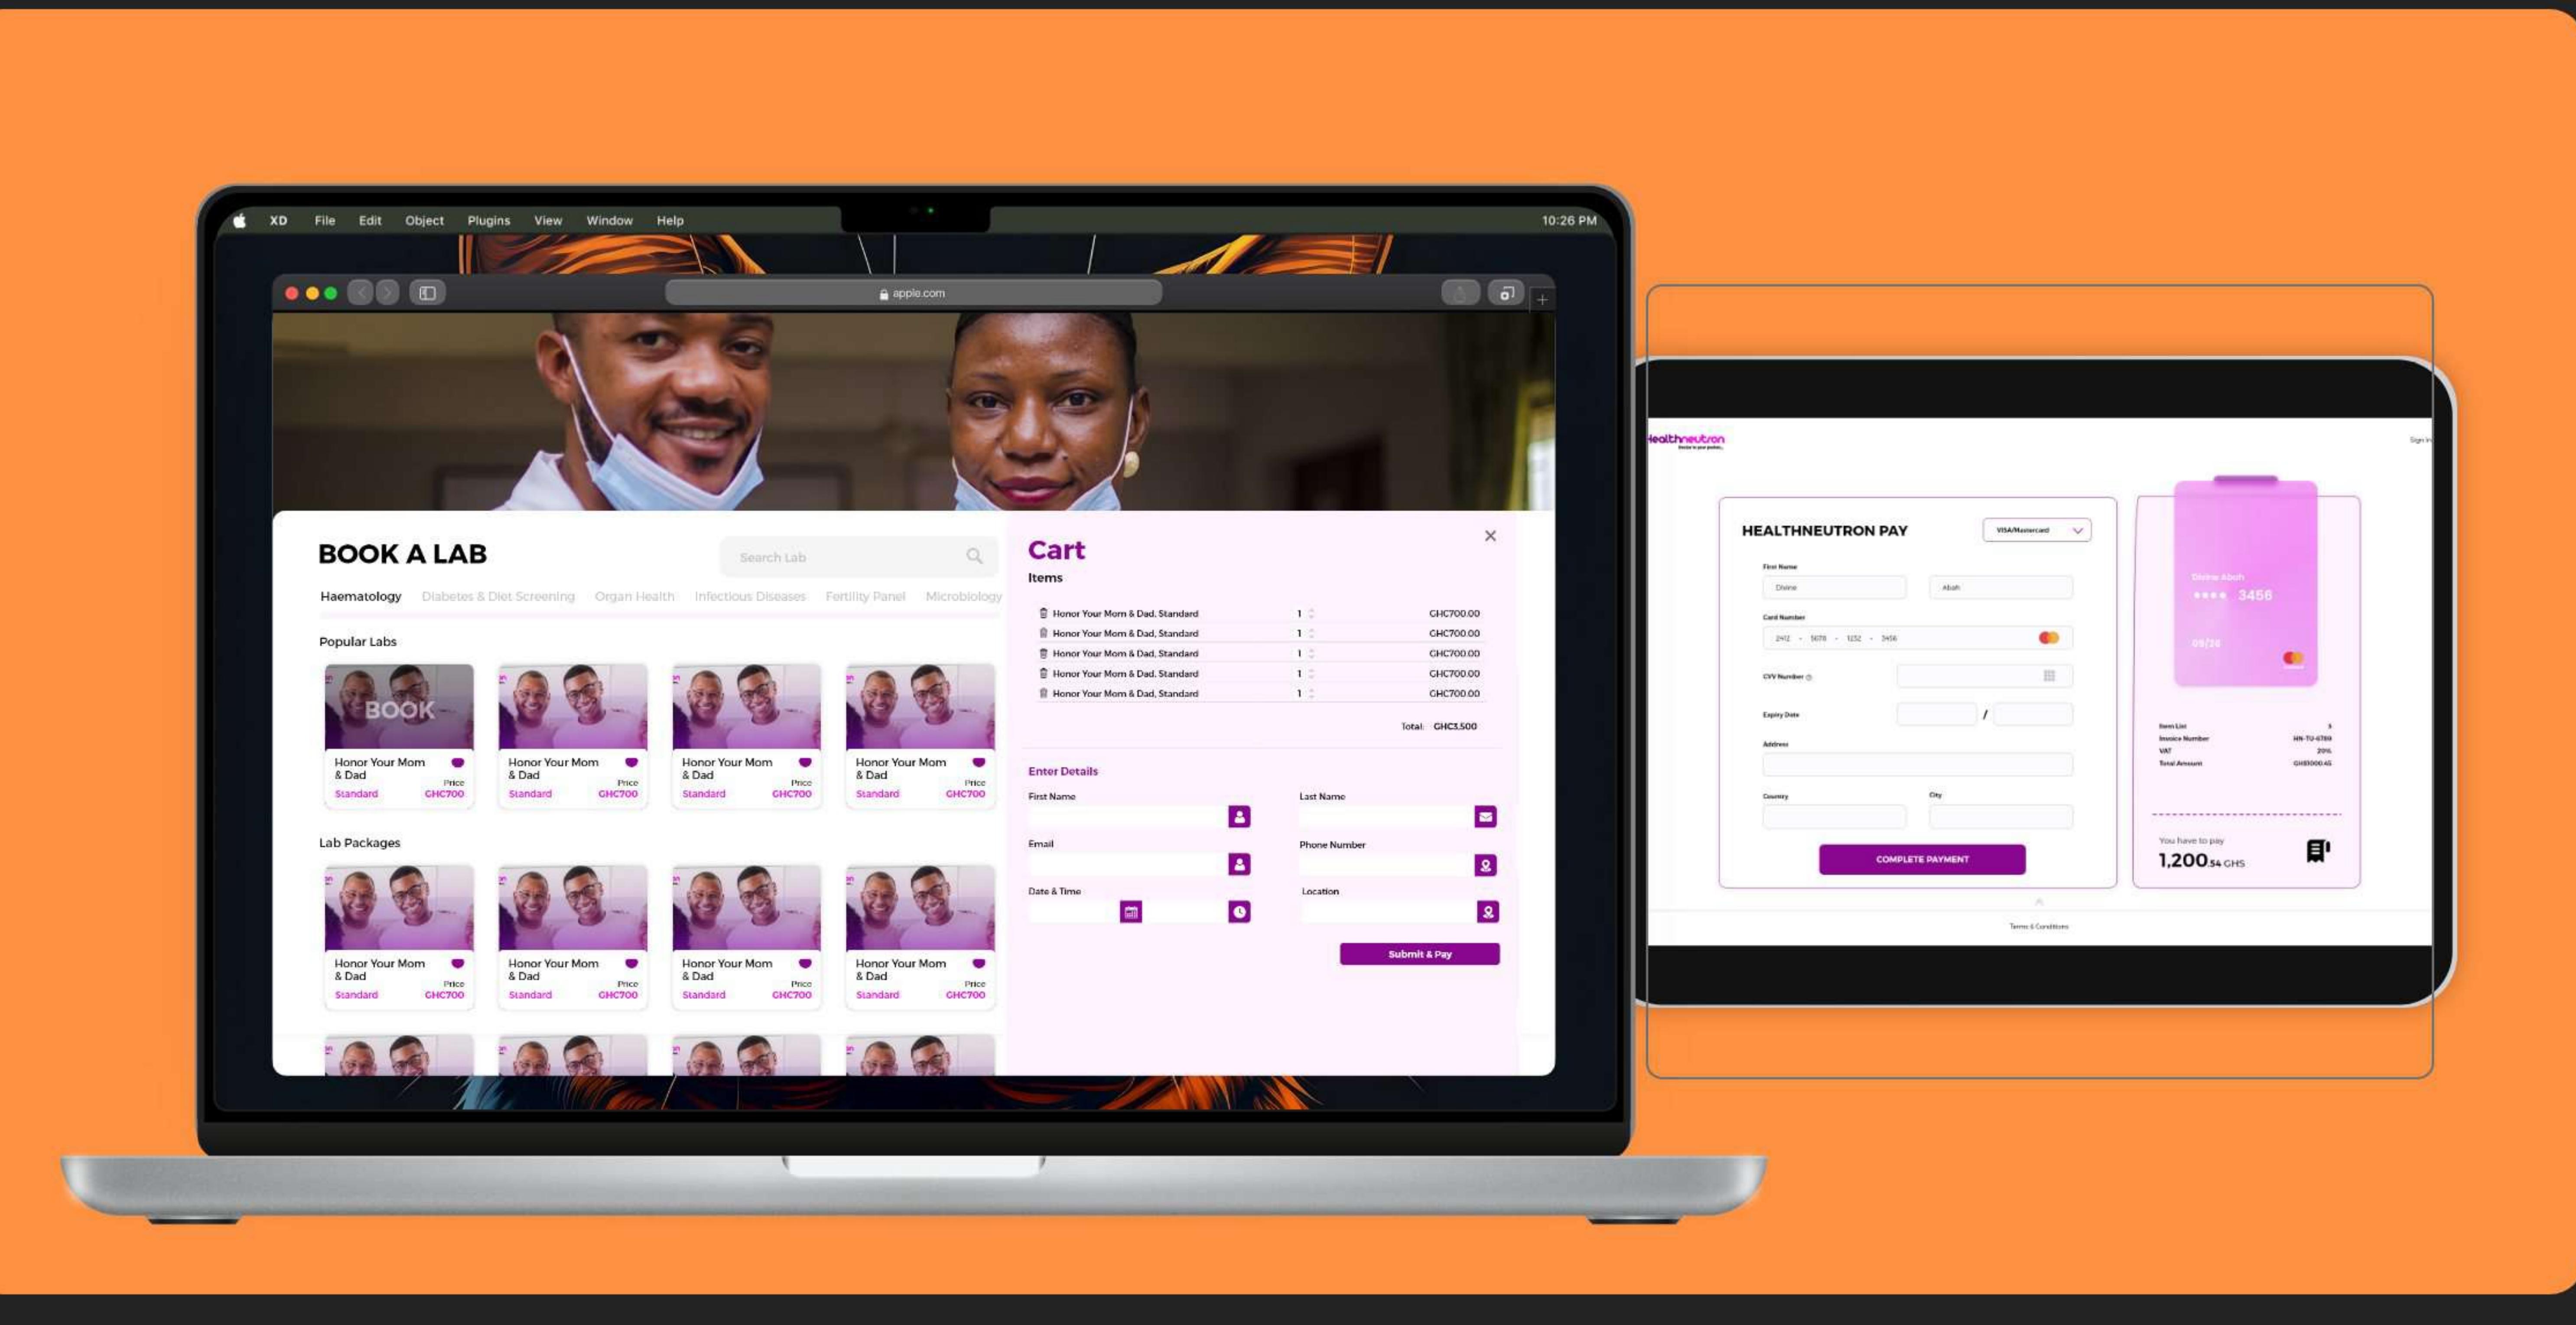

Client: **HealthNeutron**
Year: **2022**
Tools: **Adobe XD, Photoshop, Illustrator, WordPress**
Work: **Customer Journey, User Experience, UI Design, Web Development**

Axxend Corporation – Digital Transformation Website

Redesigned the website for a former Microsoft Gold Partner licensing company that wanted to rebrand as a digital transformation company. The redesign emphasized the company's shift in focus and showcased its expertise in digital transformation services. This project allowed me to apply my UI design skills and create a website that effectively communicates the company's rebranded identity and services.

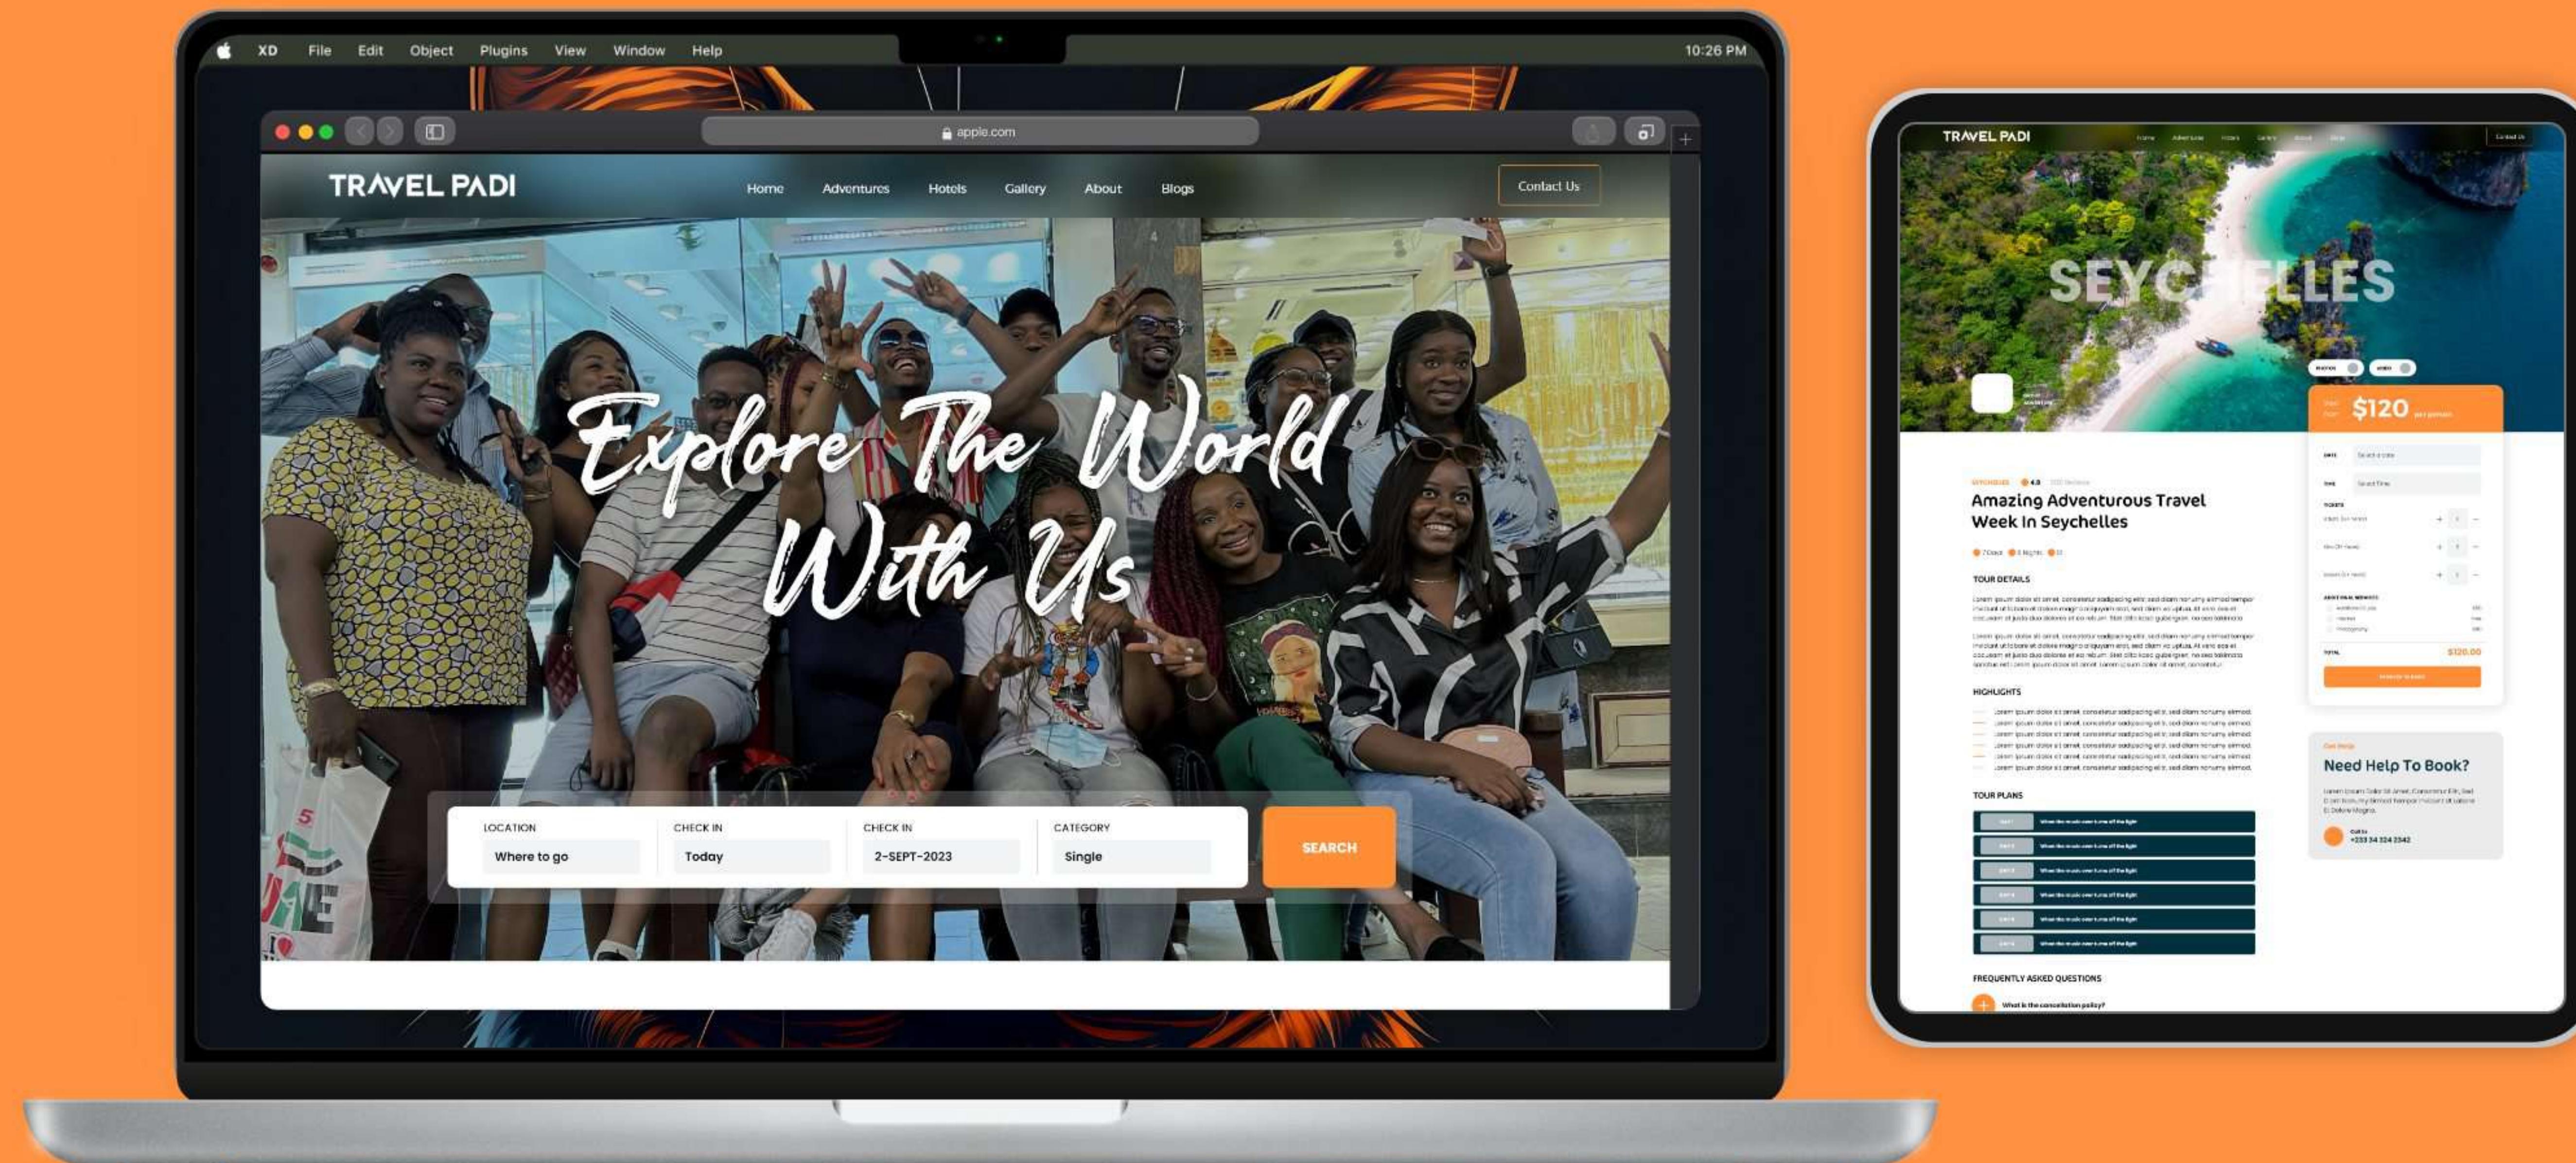

Client: Axxend
Year: 2021
Tools: Adobe XD, Photoshop, Illustrator, WordPress
Work: Customer Journey, User Experience, UI Design, Web Development

HealthNeutron - Booking Portal

The website offers both lab services and training. The redesign emphasized a user-friendly interface for booking appointments and accessing information, with a focus on promoting preventive healthcare. This project allowed me to showcase my skills in UI design and develop a more efficient and accessible platform for users to take advantage of the company's lab services and training.

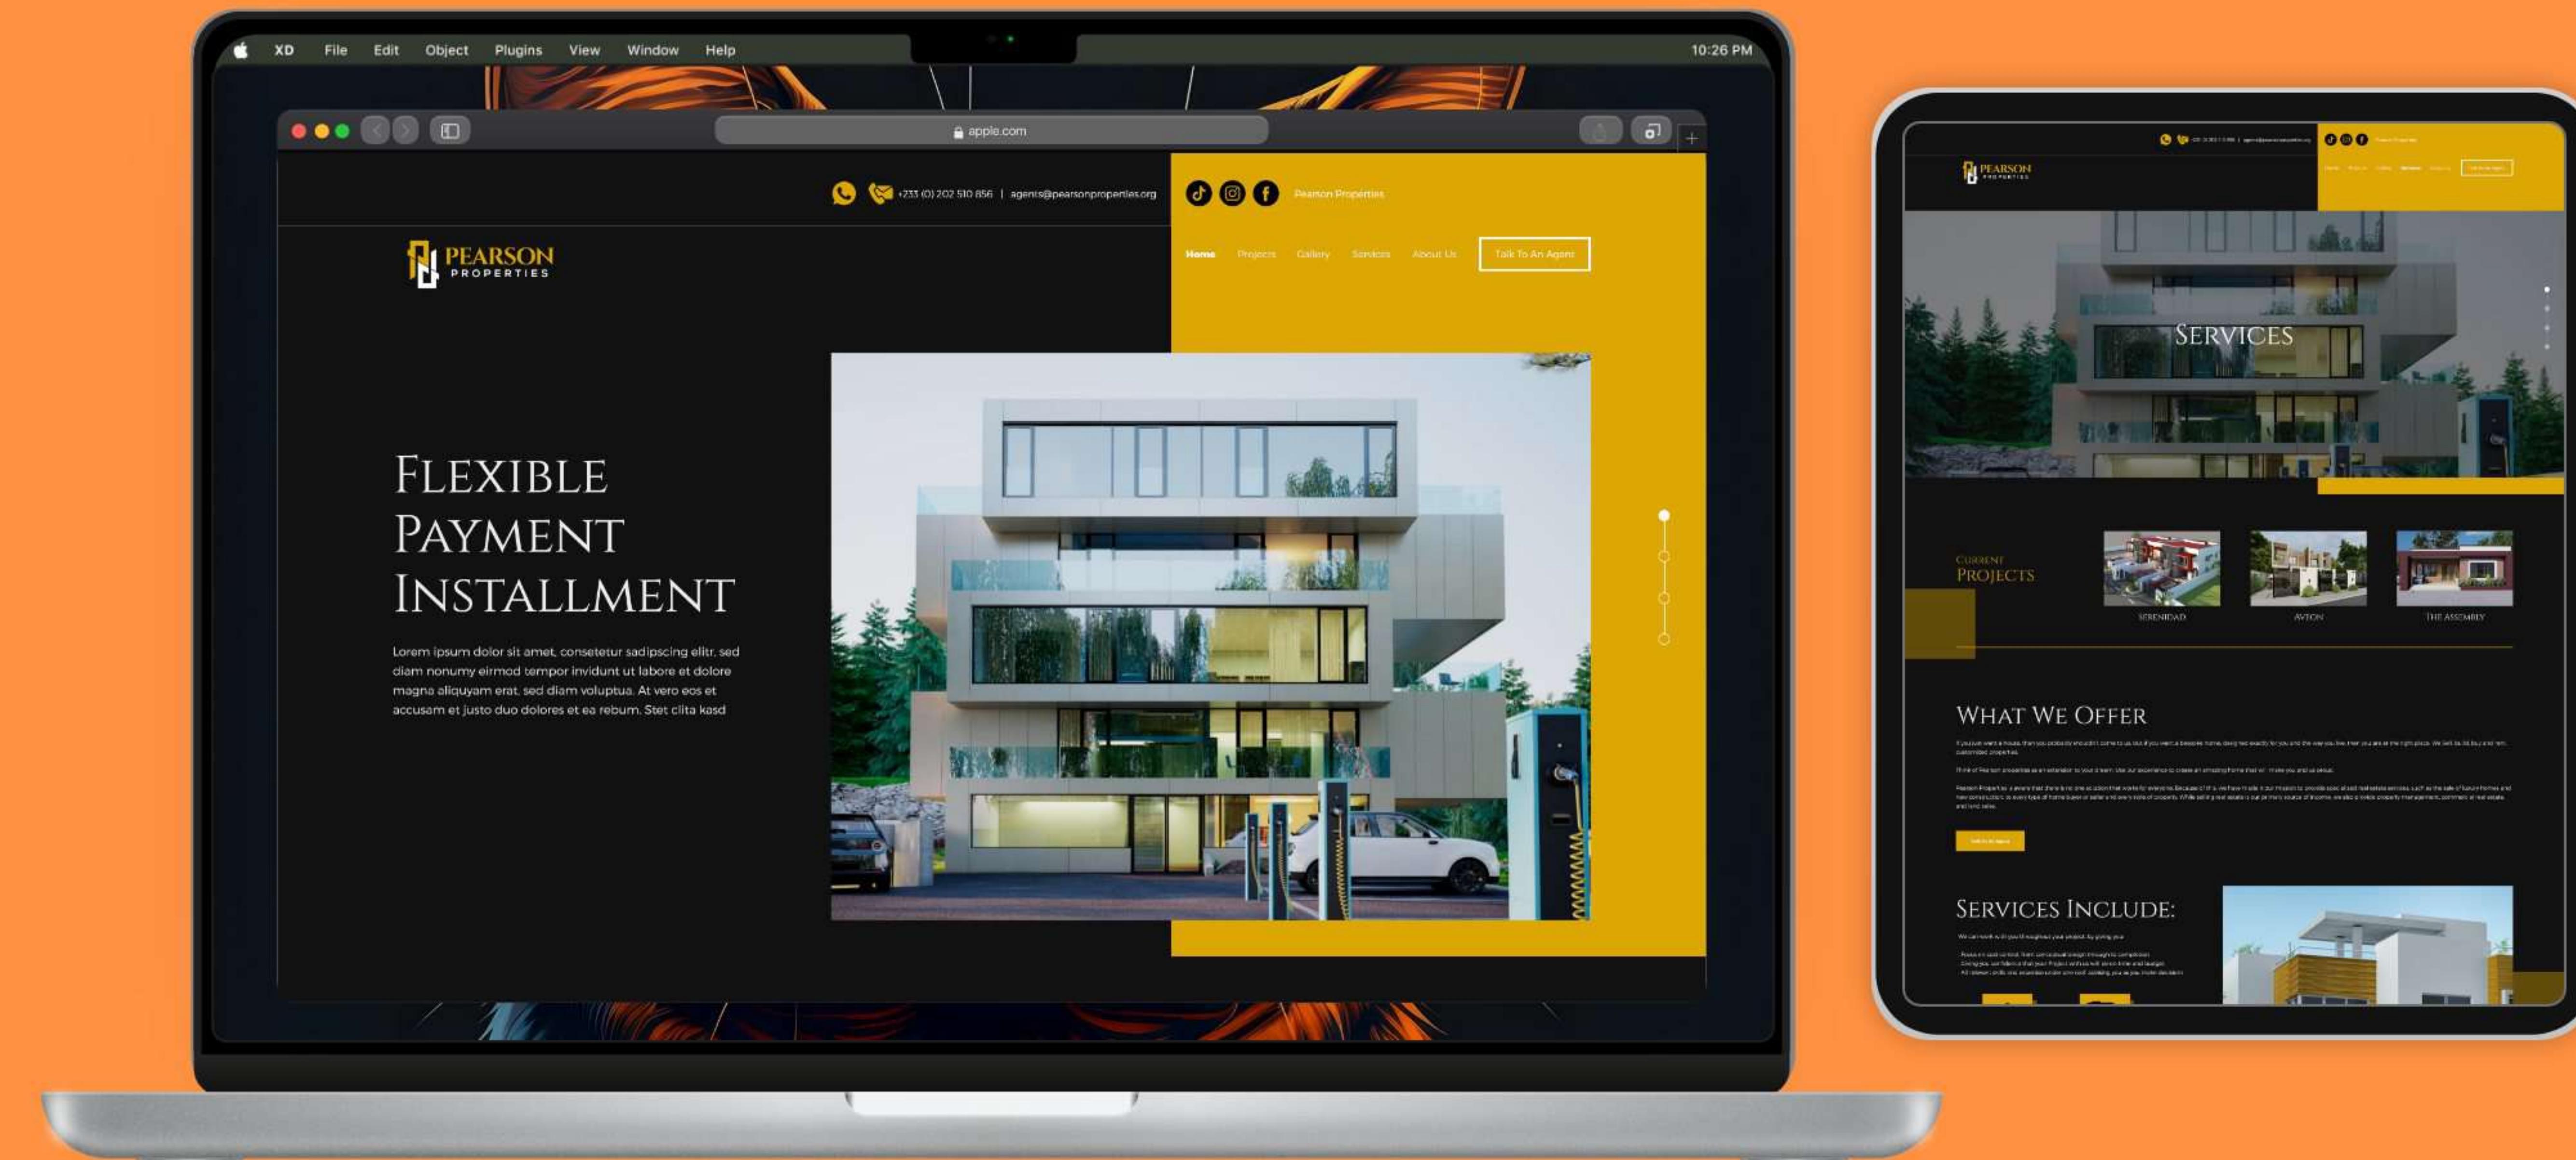

Client: **HealthNeutron**
Year: **2022**
Tools: **Adobe XD, Photoshop, Illustrator, ReactJS**
Work: **Customer Journey, User Experience, UI Design, Web App Development**

TravelPadi - Travel Website with Booking Portal

A UI for a travel company website aimed at improving the user experience for booking vacations and travel plans. The design focuses on creating a visually appealing and intuitive platform for researching and booking trips. This project allowed me to showcase my skills in UI design and develop a product aimed at enhancing the travel booking process for users.

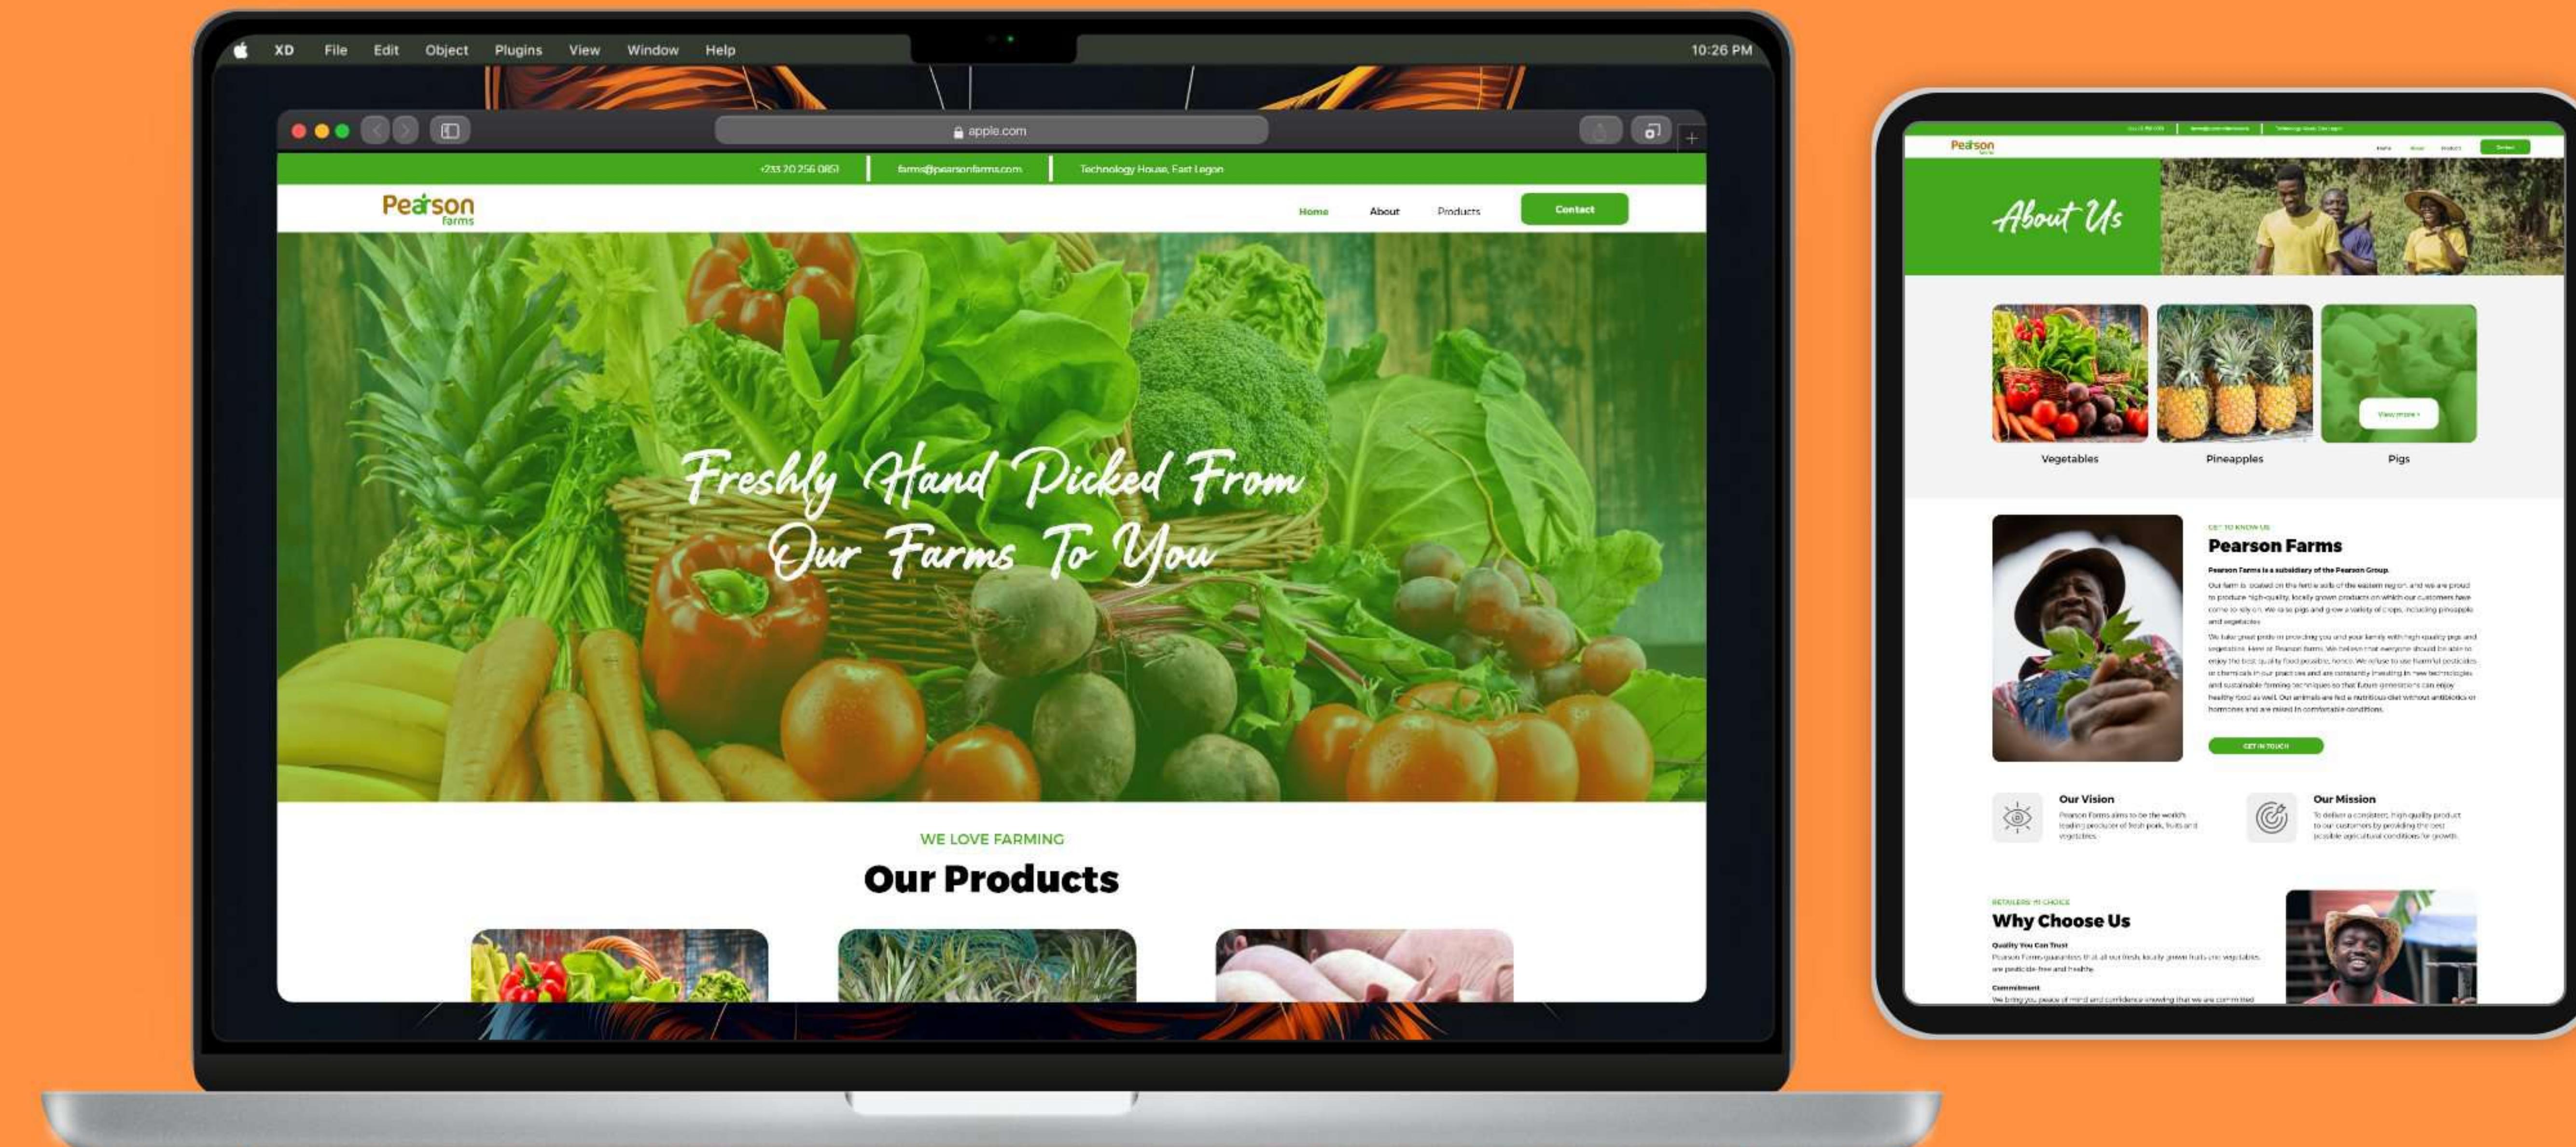

Client: TravelPadi
Year: 2022
Tools: Adobe XD, Photoshop, Illustrator
Work: Customer Journey, User Experience, UI Design

Pearson Properties - Real Estate Website

A UI for a real estate company website aimed at improving the user experience for property search and transaction management. The design focuses on creating a visually appealing and user-friendly platform for accessing real estate listings and managing transactions. This project allowed me to showcase my skills in UI design and develop a product aimed at enhancing the real estate experience for users.

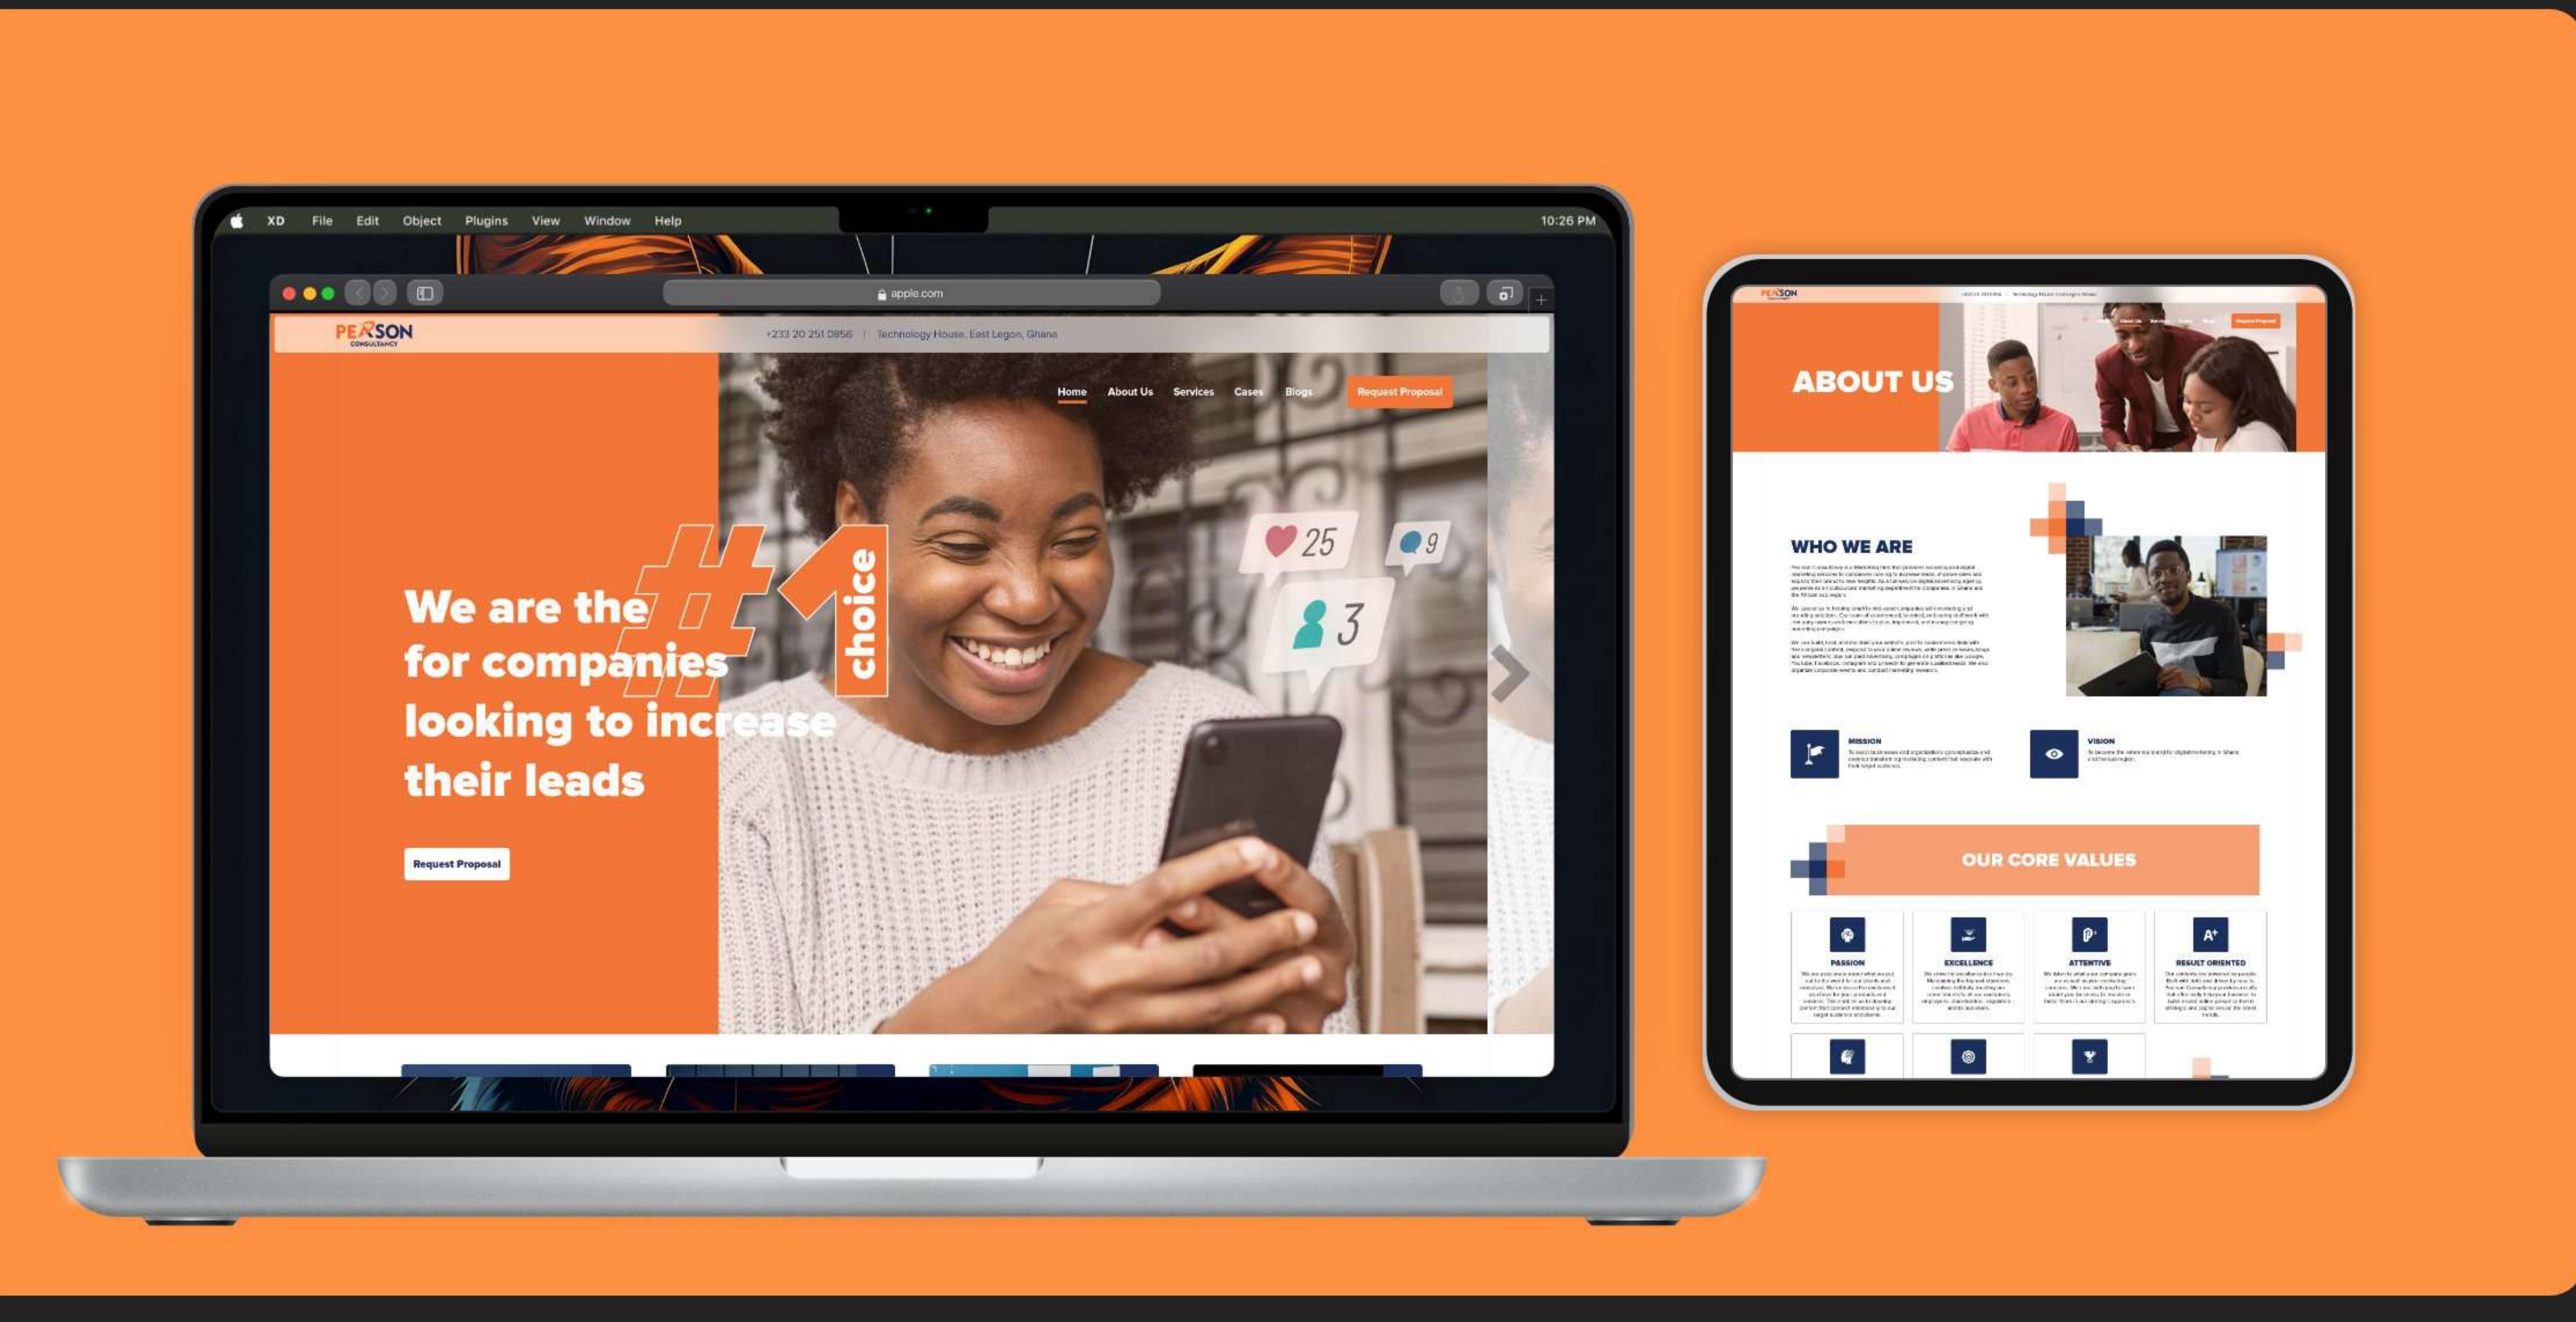

Client: **Pearson Group Limited**
Year: **2023**
Tools: **Adobe XD, Photoshop, Illustrator**
Work: **Customer Journey, User Experience, UI Design**

Pearson Farms - Farm Website

A UI for a farm company website aimed at improving the user experience for accessing information about the company and its products. The design focuses on creating a visually appealing and intuitive platform for learning about the farm and its offerings. This project allowed me to showcase my skills in UI design and develop a product aimed at enhancing the online presence and accessibility of the farm company for users.

Client: Pearson Group Limited
Year: 2022
Tools: Adobe XD, Photoshop, Illustrator
Work: Customer Journey, User Experience, UI Design

Pearson Consultancy - Marketing Website

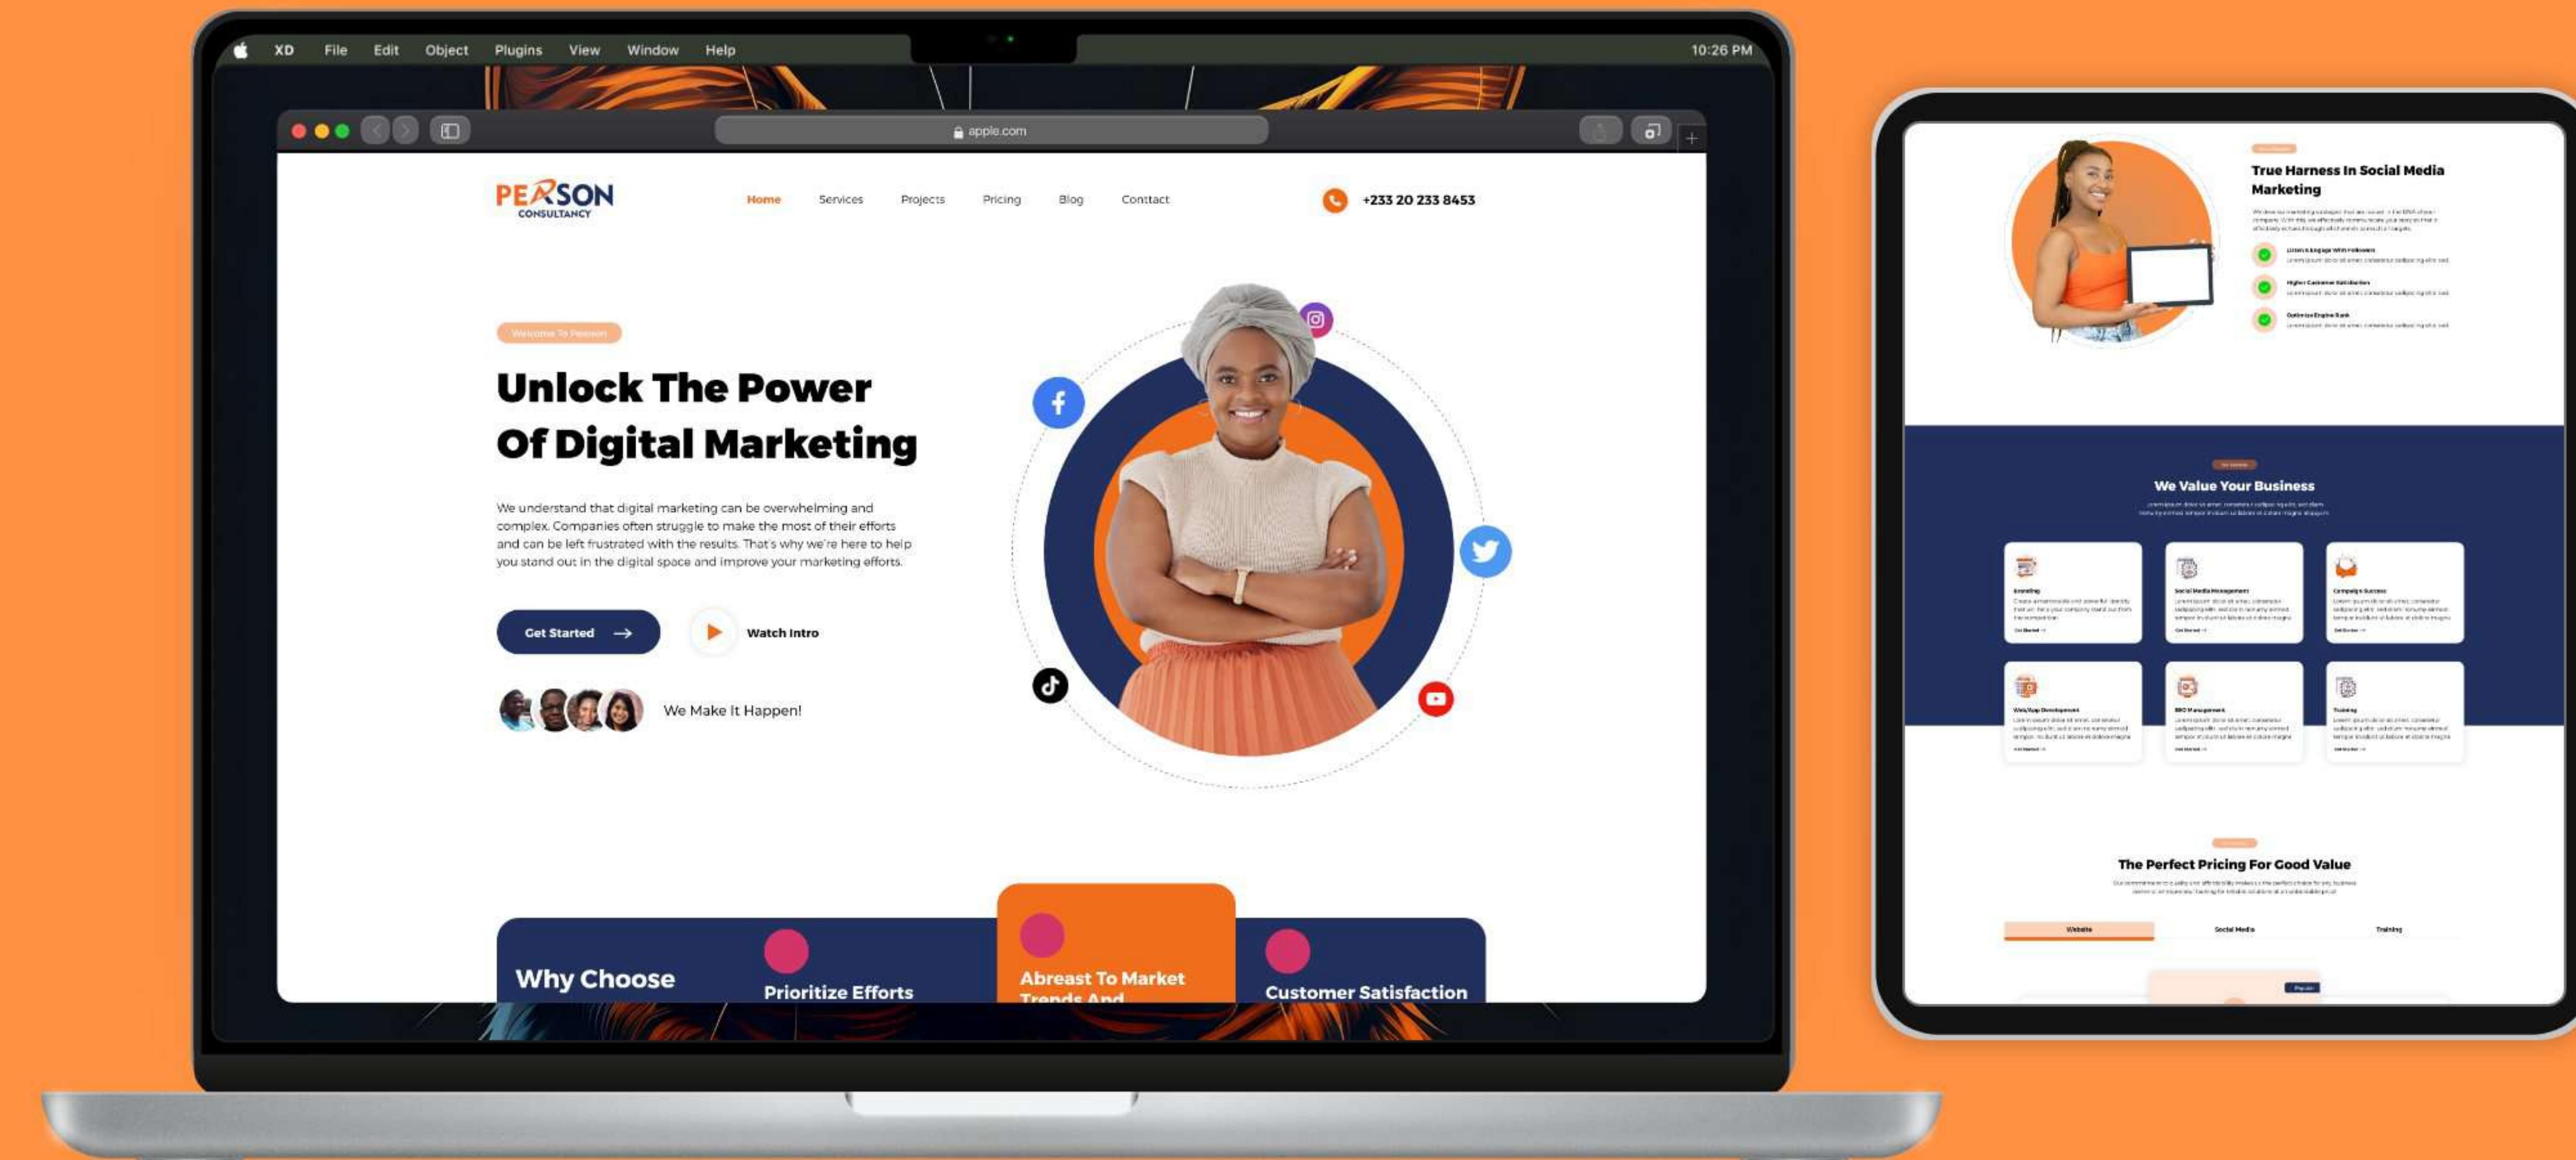

A UI for a marketing company website aimed at improving the user experience for accessing information about the company's services and expertise. This project allowed me to showcase my skills in UI design and develop a product aimed at enhancing the online presence and accessibility of the marketing company for potential clients.

Client: Pearson Group Limited

Year: 2022

Tools: Adobe XD, Photoshop, Illustrator, WordPress

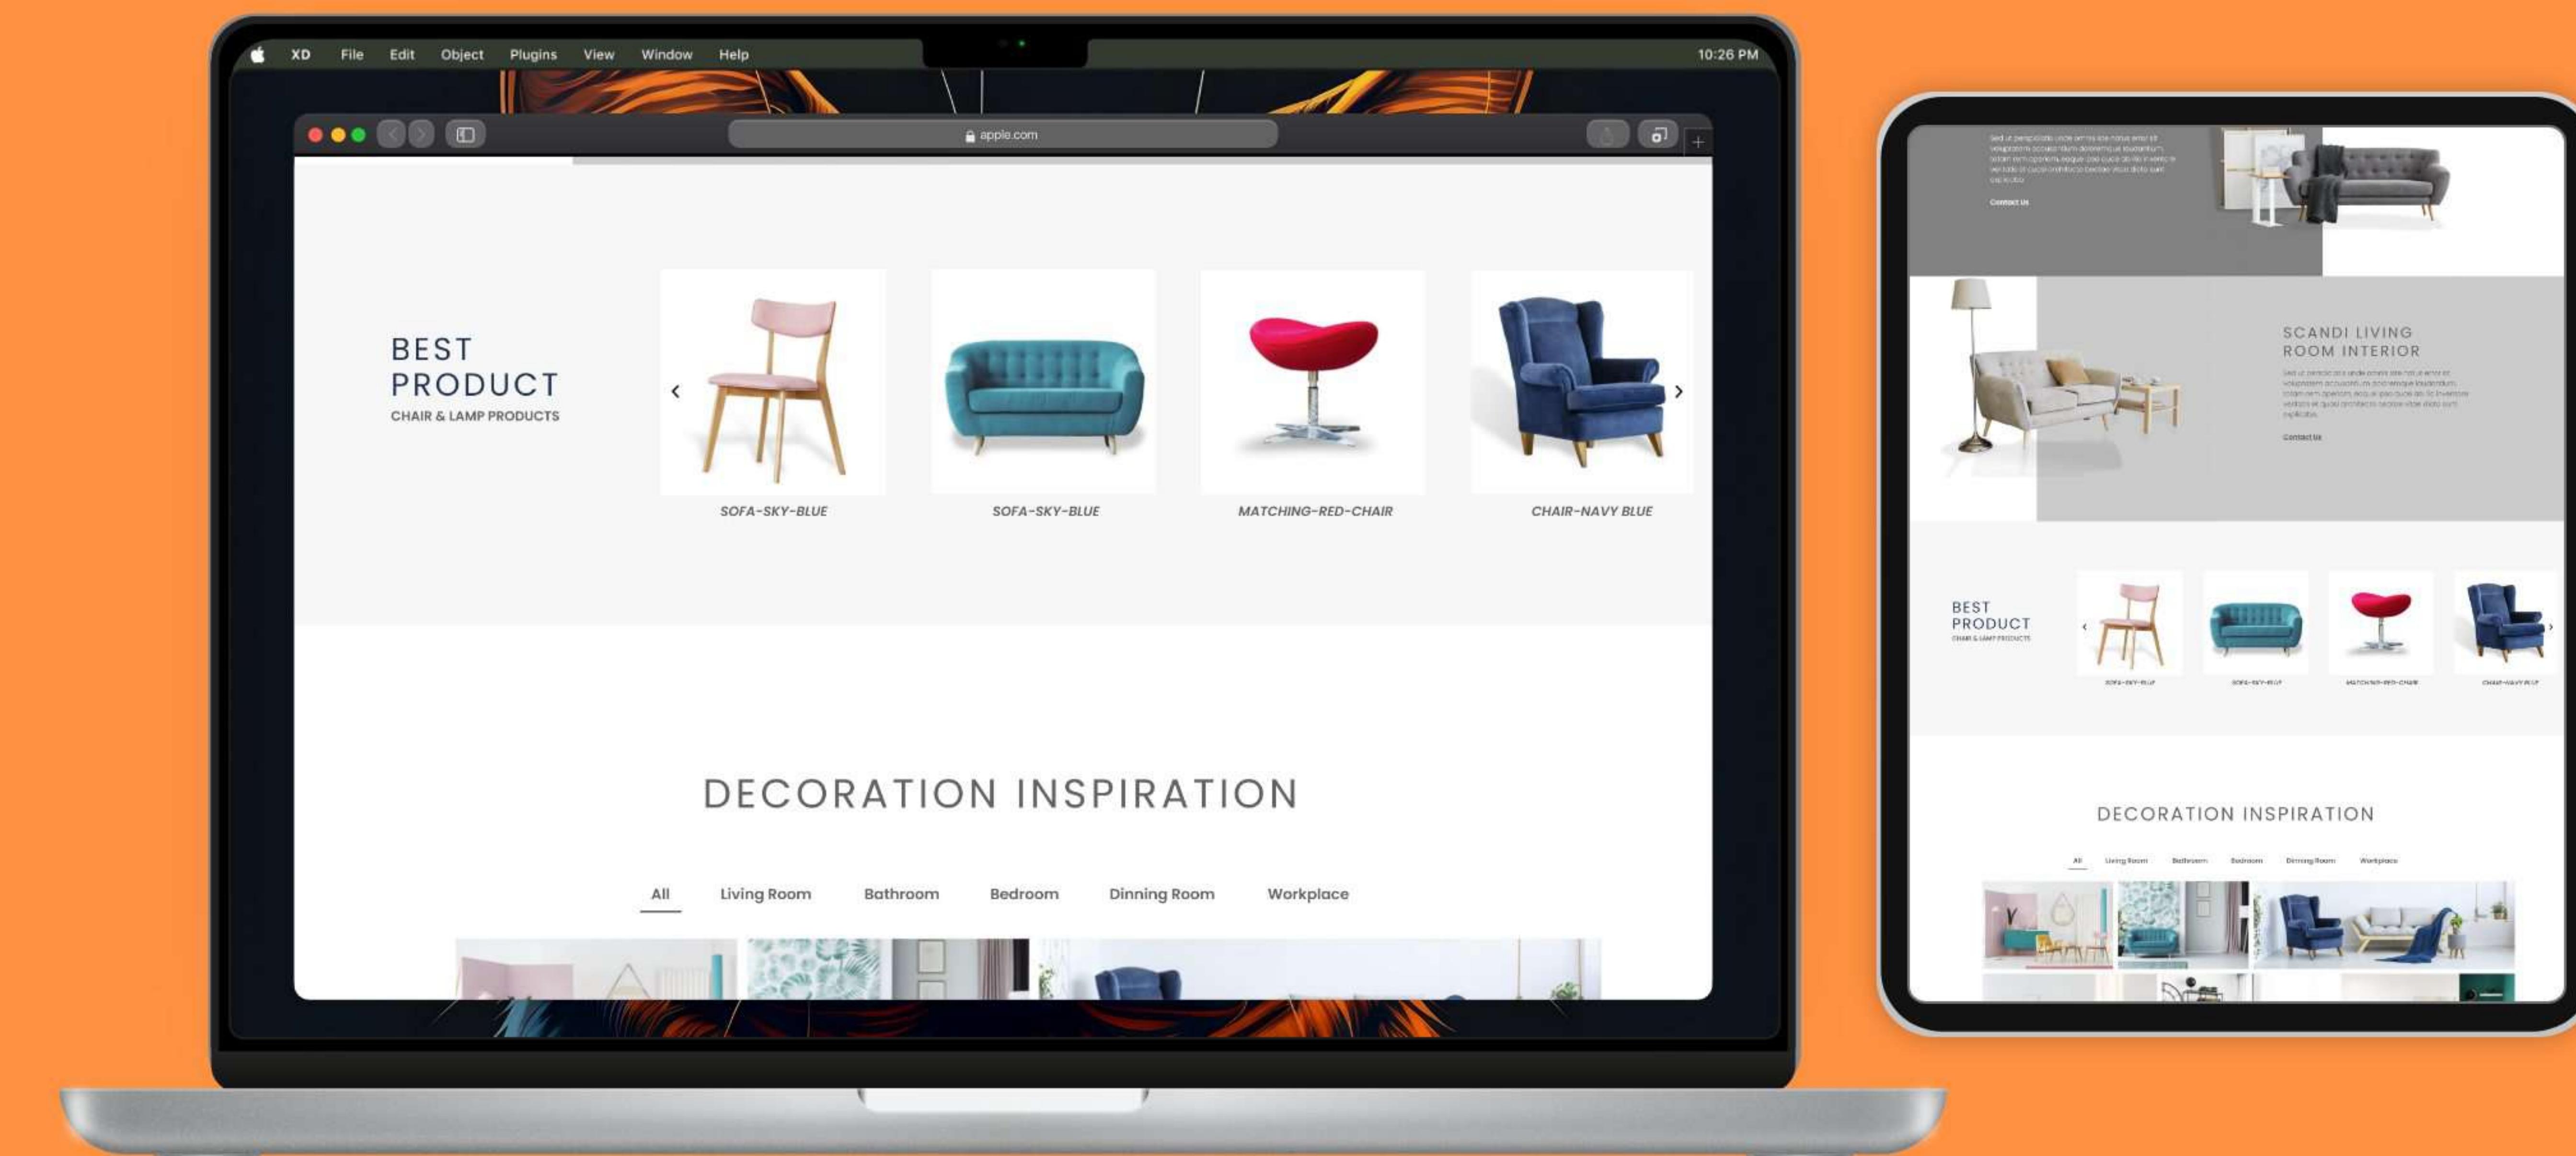

Work: Customer Journey, User Experience, UI Design, Web Development

Pearson Consultancy Rebranding – Business Training & Marketing Website

Redesigned the UI for a marketing company's website as part of their rebranding to include a focus on training. The new design aimed at improving the user experience for accessing information about the company's services and expertise in both marketing and training.

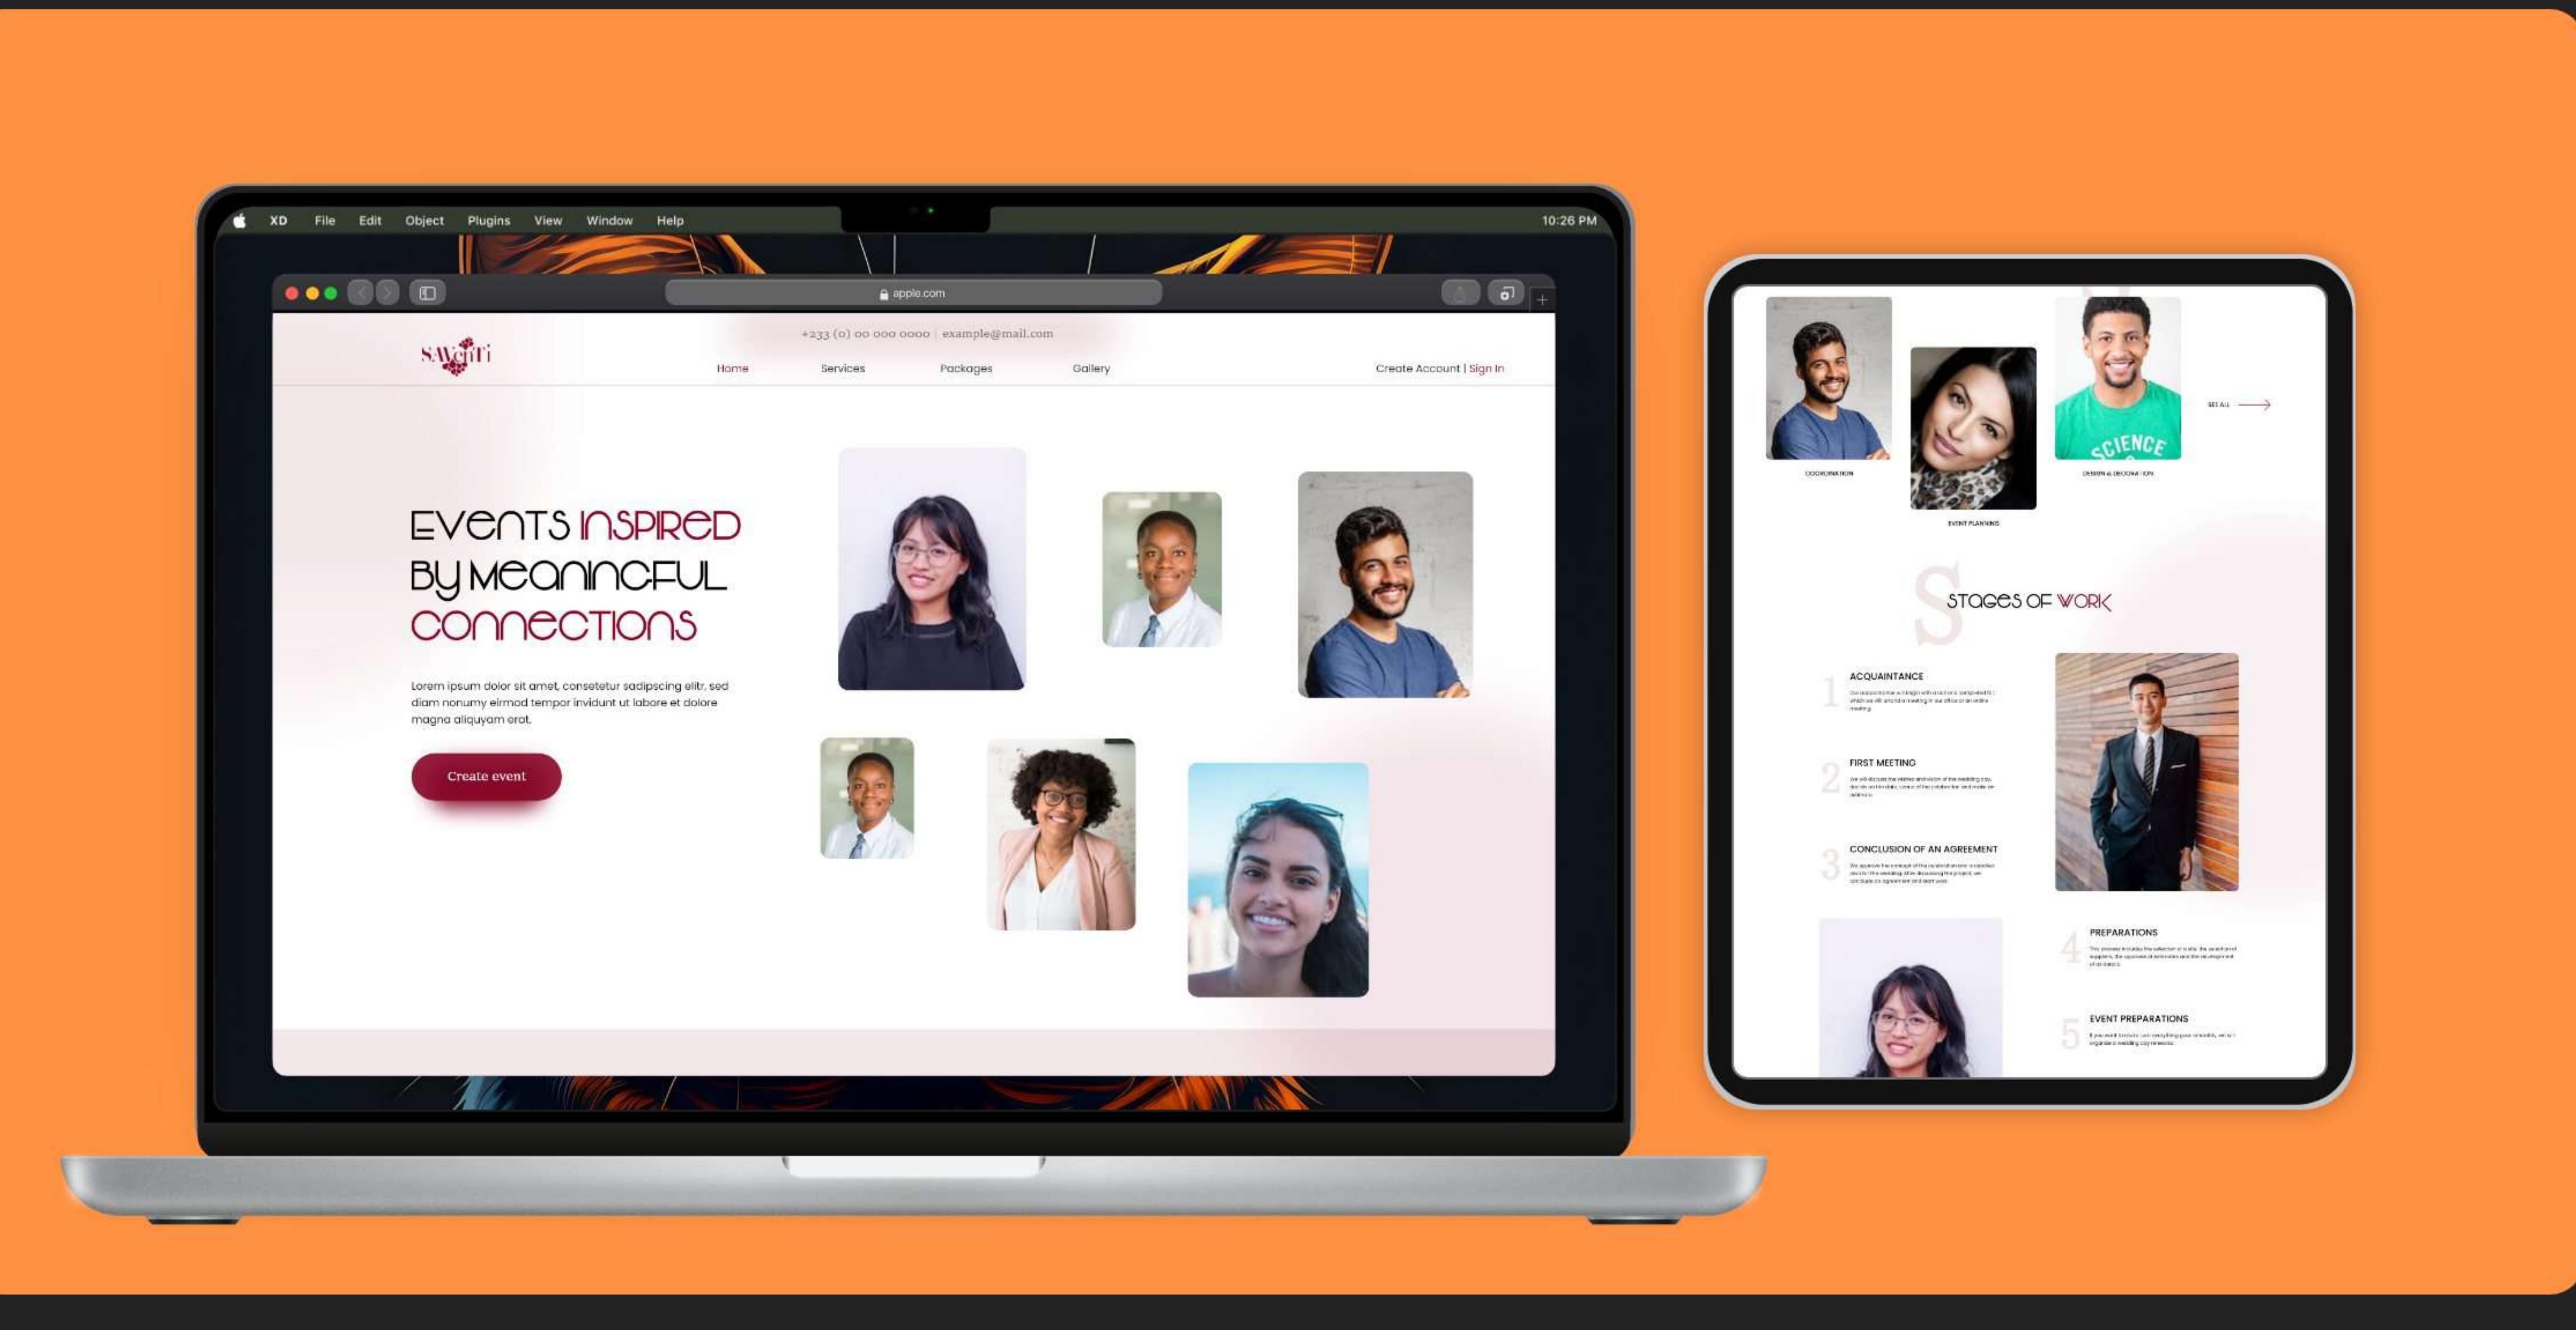

Client: Pearson Group Limited
Year: 2022
Tools: Adobe XD, Photoshop, Illustrator, WordPress
Work: Customer Journey, User Experience, UI Design, Web Development

Phenicia - Home Décor Website

A UI for a home interior décor company website aimed at improving the user experience for accessing information about the company's services and product offerings. This project allowed me to showcase my skills in UI design and develop a product aimed at enhancing the online presence and accessibility of the home interior décor company for potential clients.

Client: **Phenicia Decor**
Year: **2020**
Tools: **Adobe XD, Photoshop, Illustrator, ReactJS**
Work: **Customer Journey, User Experience, UI Design, Web Development**

Saventi - Wedding Website

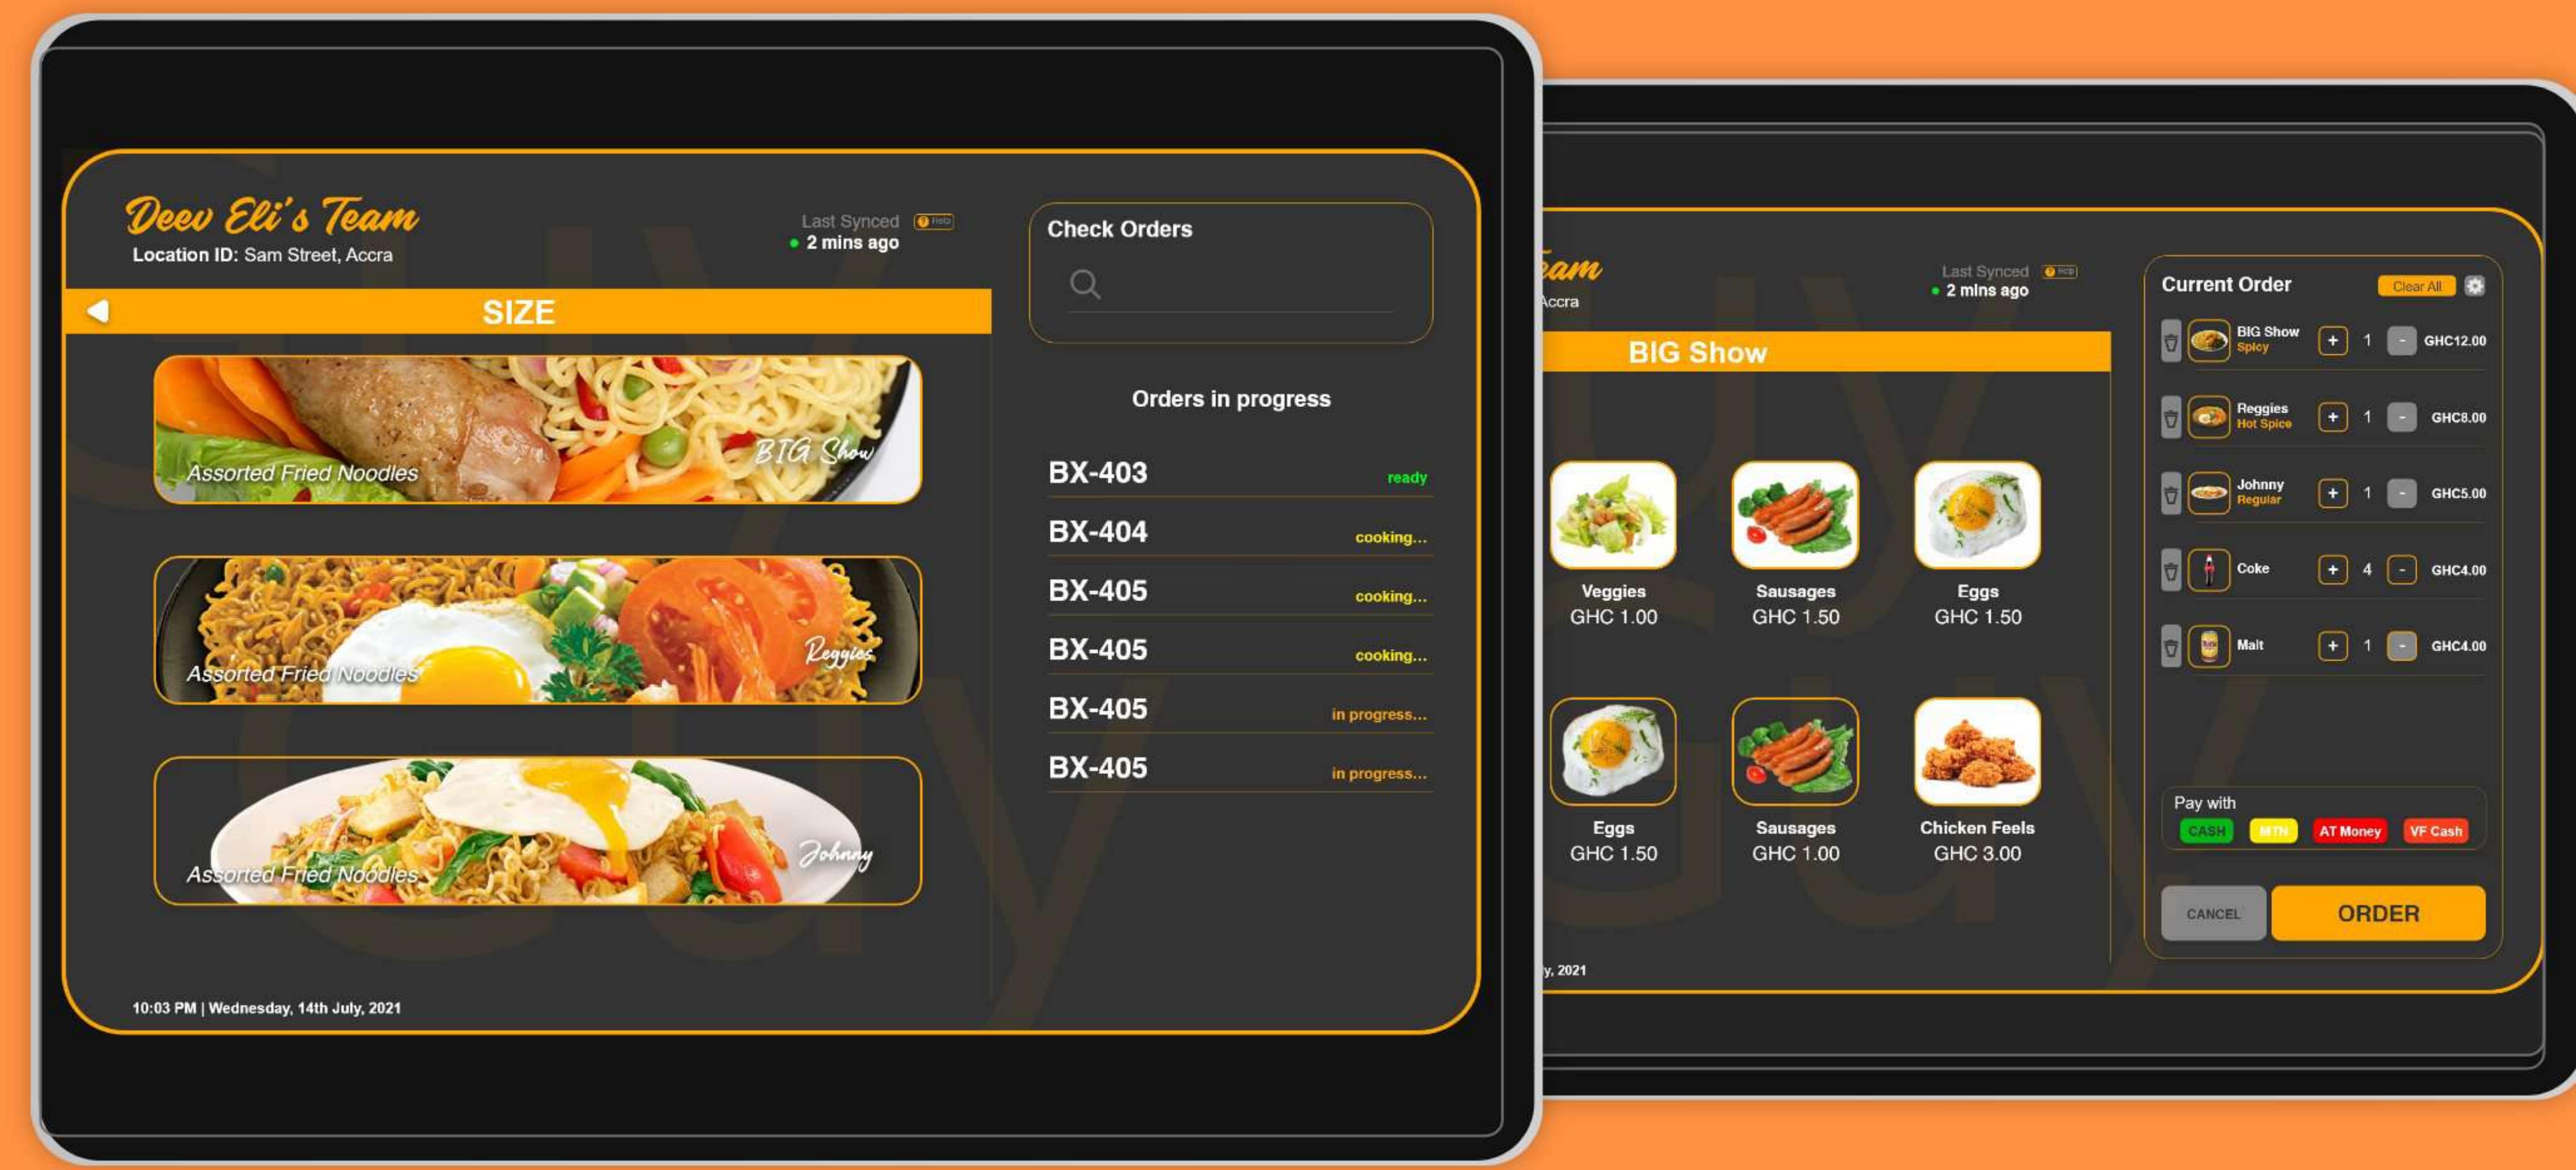

A UI for a wedding booking and management company website aimed at improving the user experience for managing wedding planning and bookings. The design focuses on creating a visually appealing and user-friendly platform for accessing information about the company's services, exploring package options, and managing wedding details.

Client: Saventi

Year: 2020

Tools: Adobe XD, Photoshop, Illustrator

Work: Customer Journey, User Experience, UI Design

Noodles POS

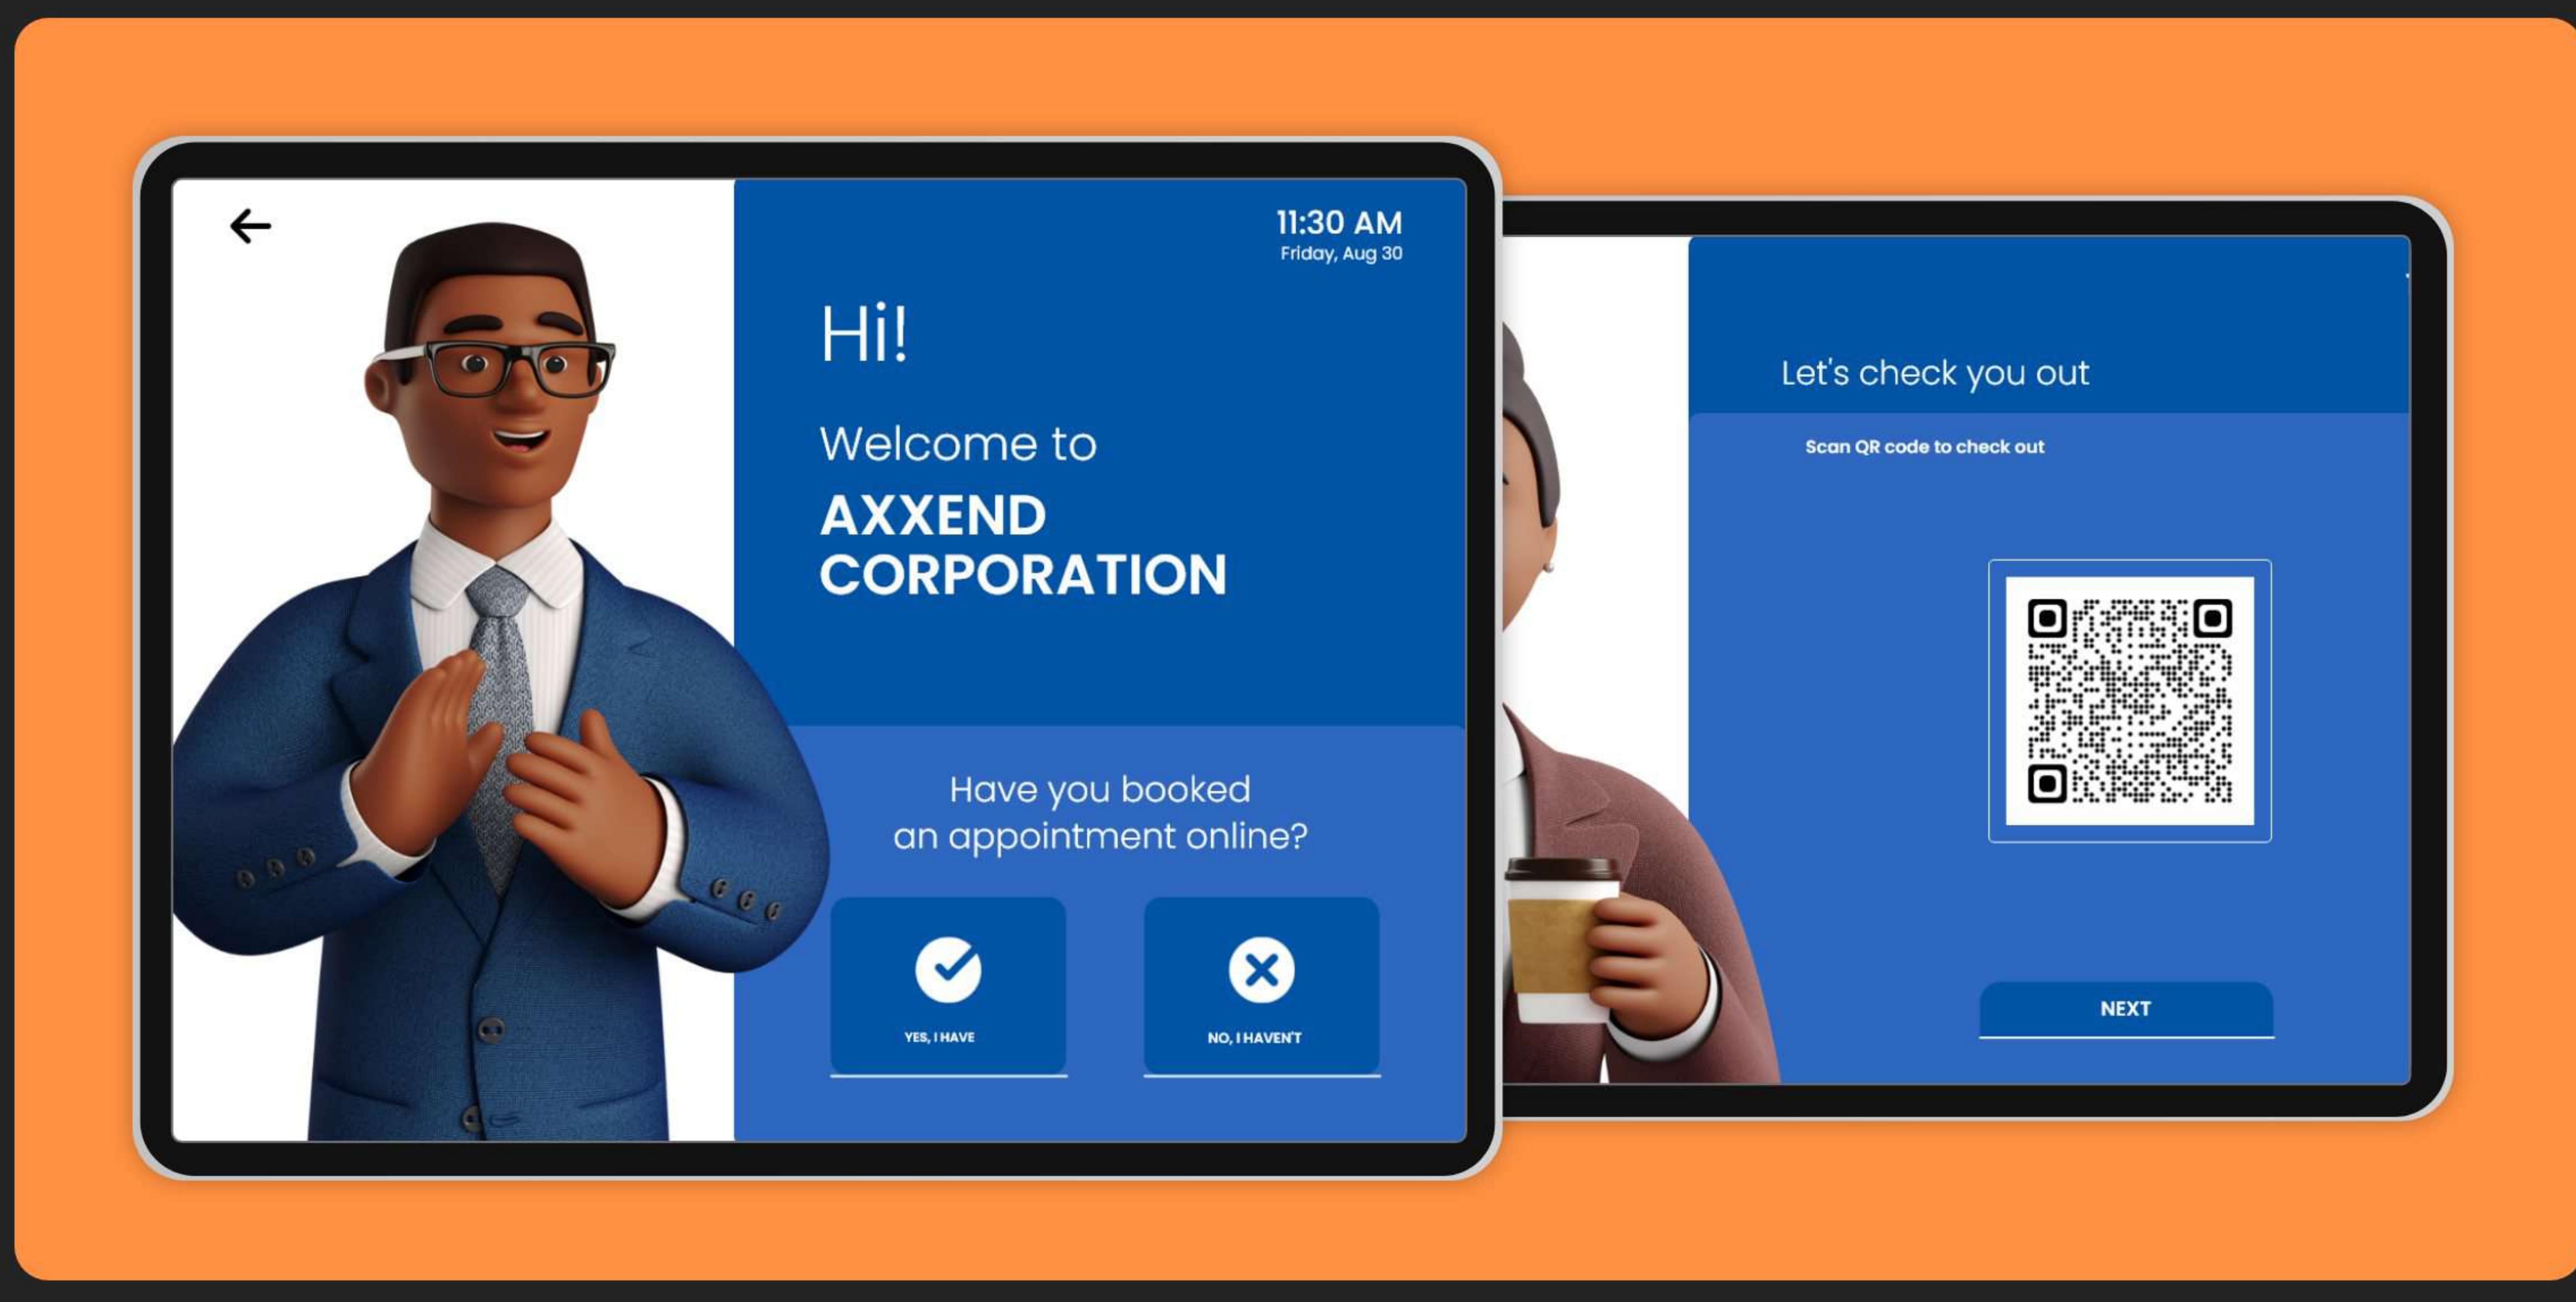

I designed a UI for a food Point of Sale (POS) system aimed at improving the user experience for restaurant staff and customers. The design focuses on creating an efficient and intuitive platform for managing food orders, payments, and customer information. This project allowed me to showcase my skills in UI design and develop a product aimed at streamlining the ordering and payment process for restaurants, improving customer satisfaction, and reducing errors and wait times.

Client: Personal Project

Year: 2020

Tools: Adobe XD, Photoshop, Illustrator

Work: Customer Journey, User Experience, UI Design

iVisit – Visitor Log E-Book System

I designed a UI for a company visitor log booking app aimed at improving the user experience for managing visitor check-ins and bookings. The design focuses on creating a simple and intuitive platform for booking appointments, logging visitor information, and managing visitor logs. This project allowed me to showcase my skills in UI design and develop a product aimed at streamlining the visitor booking process for companies, improving security, and reducing manual tasks and errors.

Client:	Axxend Corporation
Year:	2022
Tools:	Adobe XD, Photoshop, Illustrator
Work:	Customer Journey, User Experience, UI Design

HR & Sales Dashboard - Axxend Corporation

A UI for an HR and Sales management app aimed at improving the user experience for HR and Sales teams in companies. The design focuses on creating an intuitive and streamlined platform for managing employee information, sales targets, and performance metrics.

Client: Axxend Corporation

Year: 2022

Tools: Adobe XD, Photoshop, Illustrator

Work: Customer Journey, User Experience, UI Design

ADB Farmers Event Check In System - ADB

An ADB farmer's event log booking app aimed at improving the user experience for farmers attending ADB events. This project allowed me to showcase my skills in UI design and develop a product aimed at streamlining the event booking process for ADB farmers, improving communication and reducing manual errors.

Client: ADB via Axxend

Year: 2022

Tools: Adobe XD, Photoshop, Illustrator

Work: Customer Journey, User Experience, UI Design

GoCash – Self Service ATM Cash Dispenser

An outdoor ATM dispenser machine aimed at improving the user experience for bank customers. This project allowed me to showcase my skills in UI design and develop a product aimed at enhancing the customer experience while using the ATM machine, reducing customer frustration and improving customer satisfaction.

Client: Techneutron

Year: 2022

Tools: Adobe XD, Photoshop, Illustrator

Work: Customer Journey, User Experience, UI Design

Ratatouille - Employee's Food Ordering App

The design focuses on creating a simple and efficient platform for employees to place food orders, view menus, and manage their orders. This project allowed me to showcase my skills in UI design and develop a product aimed at streamlining the lunch ordering process for office workers, improving productivity and reducing manual errors.
